

Chrome Isn't Complete without the White Glove Experience

Chromebooks are fast, portable computers that give students and faculty access to the educational apps and resources of the web.

With the Chrome White Glove Service provided by your Authorized Chrome Reseller, users can count on continuing post-sale support so you can get the most from your Chrome Experience.

With the exclusive White Glove Service:

- Chromebooks are deployed directly to students- no configuration necessary
- Chromebooks are configured for your school's network, so passwords do not need to be shared
- Chromebooks are locked so only the authorized students and teachers can use the devices
- All required applications are downloaded automatically to the Chromebook when a student logs in
- No network slowdown during large Chromebook deployments

The White Glove Service is the perfect complement to any Chromebook installation that includes

- Chromebooks
- Any needed network upgrades
- The Chrome Management Console
