

CYBER SECURITY SOLUTIONS

# Security Breach: WHEN, not IF

We identify the best practices to fit your goals and budget.

**HIGH TIDE**

**TECHNOLOGY**

## Professional Services for Defending Against & Responding to Critical Security Incidents

SECURE YOUR NETWORKS AGAINST THREATS AND RESOLVE ALL TYPES OF SECURITY INCIDENTS.

### INCIDENT RESPONSE

High Tide investigates and resolves technology security events ranging from single system compromises to enterprise-wide intrusions by advanced attack groups that span hundreds of thousands of systems. High Tide focuses on helping clients recover from each incident while minimizing the impact of the event on the organization.

### UNDETECTED ASSESSMENT

This unique offering applies High Tide's specialized knowledge of advanced attackers' tactics to evaluate whether they are currently operating undetected in an environment or whether they have been there in the past.

### VULNERABILITY ANALYSIS

High Tide evaluates systems, applications, and networks for security vulnerabilities that are most likely to be compromised by outside entities. The analysis includes a determining which vulnerabilities are most serious.

### LITIGATION SUPPORT

High Tide helps to preserve, collect, analyze, and process electronic evidence. High Tide consultants regularly provide expert witness testimony.

### CONTINUED SERVICE AND SUPPORT

High Tide assists organizations in improving internal teams of incident response. High Tide reviews current procedures, internal capabilities, and technological advancement against leading security best practices.

High Tide also assists in training and on-going consulting services.
