

A 1 U form factor built to perform your network needs.

Howard Computers' I1008 is an Intel® Xeon® 5000 Series based server in a 1U form factor. This system is a powerhouse in a small package. It features the Intel® 5000P chipset and Intel® Xeon® 5000 dual-core processors with a maximum of 32GB of PC2-4200 memory for plenty of reliable speed. This server is a breeze to install, setup, and comes with free web and phone tech support for the life of the system. This system features genuine Microsoft® Windows® Server 2003 and a powerful integrated graphics solution.

Howard I1008

Howard Computers recommends genuine Microsoft® Windows® Server 2003.

The Howard Advantage!

With every Howard product purchase, you receive the following for **FREE!**

- ✓ Phone and web tech support for the LIFE of your system
- ✓ 100% US-based, English-speaking customer support 24/7/365
- ✓ Phone hold times < 1 minute
- ✓ Reliable disaster recovery software

Experience the **Howard difference.**

Feature	Description
Chipset	Intel® 5000P chipset
Processor Options	Supports 2 Intel® Xeon® 5000 and 5100 series processors, 667 / 1066 / 1333 MHz front side bus
System Memory	Up to 32 GB of PC2-4200 or PC2-5300 FB-DIMM memory
Hard Drive	Integrated Intel® 6321 ICH Southbridge RAID 0/1 1x Slim line bay for optical drive or floppy options Support for 3x S-ATA / SAS hard drives
Graphics	Integrated ATI® ES1000 16MB
I/O Slots	Option 1: 1x low profile PCIe x8 slot and 1x full height PCIe x8 slot Option 2: 1x low profile PCIe x8 slot and 1x PCI-X slot
I/O Ports	Rear Panel: VGA:1, Console Port: 1, Gigabit Ethernet: 2, Optional remote management hardware with dedicated LAN controller, PS/2 ports for keyboard and mouse: 2, Optional I/O Expansion Modules, USB slots dependant on front panel control unit
Network	Intel® PRO/1000EB Dual Port Gigabit Adapter
Power Supply	Single 600 watt power supply
Dimensions	1 U form factor: 1.7" (H) x 16.9" (W) x 27.2" (L)

What are your needs?	Yes	No
Easy to set-up & configure	•	
Recommended for entry-level		•
Ideal database server	•	
Great for email, file, print & internet	•	
Ideal for multi-site telephony (VoIP) applications	•	
Removable storage device		•
Optional internal tape drive		•
Rack mountable server	•	
Pedestal server		•
Processor-intensive applications	•	
Vast internal storage		•
Embedded RAID 0,1	•	
Serial ATA hard drives	•	
Hot-swappable SCSI (SAS) hard drives	•	
Xeon 5000/5100 series	•	
Includes Lifetime support	•	

Q: Can this server support an office of 10 – 15 employees?

A: Yes. These systems were developed to feature rich applications and to support a larger user installation base.

Q: Is this server replacing another Howard model?

A: No. The "I" line is a completely new Intel® Xeon® 5000/5100 based series.

Q: Can this server handle Voice over IP applications and performance requirements?

A: Yes. Even modestly configured versions with a single Intel® dual-core processor, 4 GB memory, and a RAID 1 configuration can handle 1,000 + users.

Q: What is Dual-Core?

A: Dual-Core is the process of taking a single piece of silicon and placing two processor cores or "brains" on it. This effectively gives you dual processor configuration in a single package. In the instance of our "I" line which has two processor sockets this means you achieve a quad processor configuration.

Q: Why such a long lead time?

A: Simply put — because we custom build each system once ordered and then thoroughly test it to ensure it will meet and / or exceed our customer expectations.

Q: Does Howard Computers offer installation services?

A: Yes. Howard Computers has a Network Services Group that can do installation of systems as well as network security analysis and other technical services.

Q: Whom should I contact for support?

A: Call Howard Computers for world-class support and service if there are any questions about the server. Customer support is available online at <http://www.howardcomputers.com/support>, through phone at 1.888.323.3151, by email at tech@howardcomputers.com or by traditional mail at Howard Computers, 580 Eastview Dr., Laurel, MS 39443.
