WHY NEWLINE?

Newline Interactive is a manufacturer of award-winning interactive displays, intuitive software, and other interactive innovations that are easy to use and increase collaboration across the board.

We are THE choice for businesses looking for simple solutions to increase productivity and to help them succeed.

We believe that truly successful and innovative products should be easy for anyone to use. Each product Newline has introduced follows their principle of simplicity, making each interactive flat panel user-friendly and completely non-proprietary.

Over the years, our goal hasn't changed. We are dedicated to providing solutions for our customers that save them time and help them be more successful. From our award-winning interactive displays to our innovative whiteboarding software, our products combine cutting-edge technology with a state-of-the-art user experience.

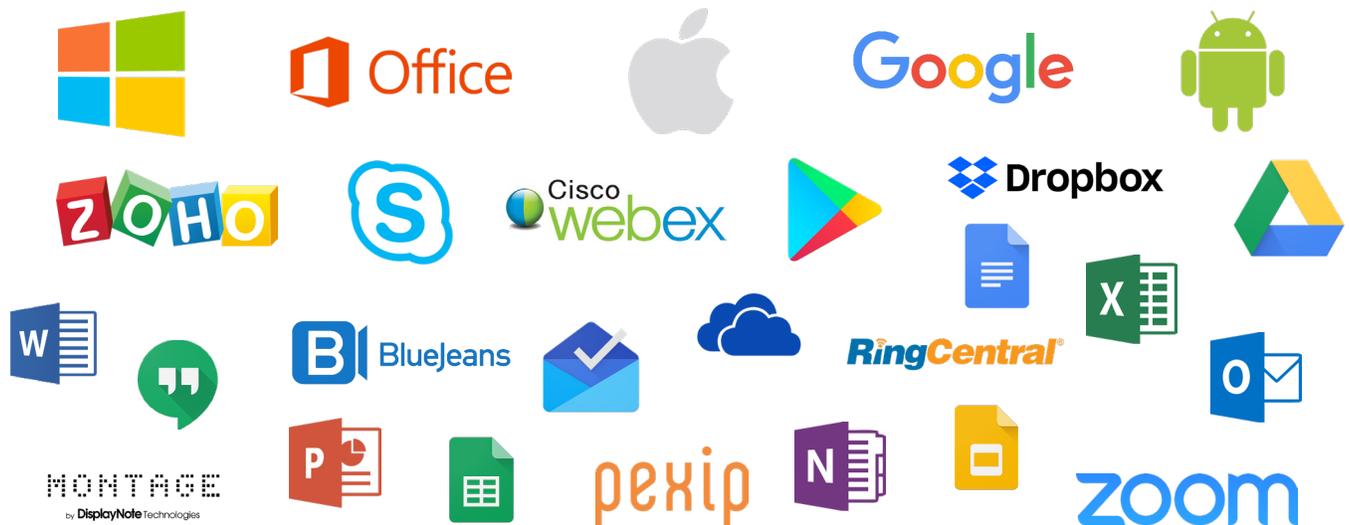

Founded to develop interactive solutions that are:

The Easiest-to-Use on the Planet

This is the cornerstone of Newline and it is the key to our success. If a solution is not easy to use, we won't bring it to the market.

Completely Non-Proprietary

We work in your world. Our displays work with:

FROM OUR CUSTOMERS

"With the whiteboard feature, to be able to actually talk about ideas and concepts, I feel like people are very visual, so if you can draw it out and show it to them, it really settles in and helps them understand."

Tom Eifler, Jr.
President, Eifler Advisory Group

"TRU TOUCH from Newline has significantly improved communication with our clients. The more clear our communication, the stronger relationships we build to grow our business."

Jay Arbetter
Senior, Vice Principal, UBS Financial

"The 28 Newline touchscreens have been instrumental in setting the immersive tone at the National Flight Academy. Our students depend on these touchscreens as they plan, brief and coordinate each of their missions. During the 2017 Summer, over 1600 students used these 28 Newline touchscreens and the National Flight Academy has been extremely pleased with their performance."

John O'Hara
Director of Technology, National Flight Academy
