

AVer **TabChargeCT**

36 Device Chromebook, Tablet and Netbook Charge Cart

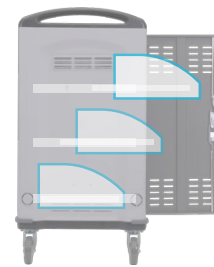

Built for 36 devices

Chromebooks, all iPads, all Android tablets, Netbooks and whatever comes next (fits up to 13" screen at 1.85" wide)

Easy device access

Usually removing devices from the bottom shelf is difficult, but not with TabChargeCT. Since every shelf can be easily pulled-out, storing or removing devices is effortless.

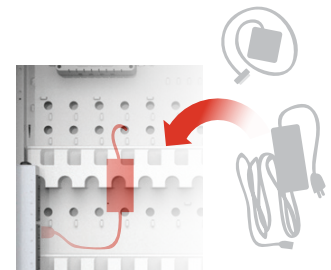

Safe charge. Circuit blowouts?

Never. The built-in timer effectively groups and charges 12 devices at one time. It also cycles through the groups in 15-minute intervals to ensure an even charge across all devices.

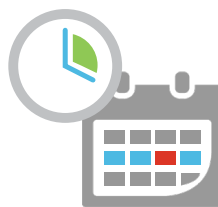

Advanced cable management

TabChargeCT accommodates a variety of adapters that won't fit in standard power strips as well as provides individual AC adapter compartments for clean and organized cable management.

Smart charge

Worried about peak energy hours or overcharging your devices? No problem. Easily start and stop the default cart charging duration at any time, or set-up a schedule (day/time/duration) that best suits your needs.

Durable and secure storage

TabChargeCT's rugged construction easily withstands day-to-day classroom use and includes a 3-point locking mechanism that provides added security.
