

NEW HOWARDedu Collaboration Station

Sale Price \$3299 Model Number: Collab-G2

Break free from traditional classroom settings with Collaboration Stations from Howard. Each station provides an ideal setting for student focused learning and instruction—a gathering space that encourages active, social, and engaging educational experiences that result in deeper learning. Collaboration Stations include a technology-ready table, NEC commercial-grade display, Huddle Space hub and 4 OM5 Active chairs. They're simple to set up, easy to use, and more affordable than outfitting just one traditional classroom, while offering four times the productivity potential. Help students reach their full potential by providing a less formal, collaborative environment.

ELMO

The Huddle Space is a simple to use and easy to implement device that facilitates the collaboration process in such a way that all students in the group are active participants. The ELMO Huddle Space Collaboration Hub is a perfect solution for 1:1 and BYOD classrooms. It's a simple 8 HDMI input connection source equipped with video and audio recording allowing you to connect any HDMI device.

NEC

The 42" NEC E425, a direct-lit, commercial-grade display, is ideal for education and digital signage applications. Compared to previous generation displays, this model's LED backlighting allows for reduced power consumption, a thinner depth, a smaller bezel and lighter weight. Full HD resolution delivers stunning image quality for a variety of content, and the E425's integrated tuner and speakers allow users to enjoy high-definition broadcast capabilities.

SPECTRUM INDUSTRIES INC.

The InVision Access Nano Table connects collaborative teams with the latest technologies. Our 48" x 60" table is available with electric eLift legs or Set-and-Go adjustable height legs. It's the perfect table for the educational or corporate setting.

- Active learning table that can change the height at the touch of a button with eLift core
- ADA-compliant knee clearance under worksurface

SPECTRUM INDUSTRIES INC.

The OM5 Active Guest Chair features "body-activated motion" inspired by a desire to create responsive ergonomic seating through precise engineering which responds automatically to changes in body position. The chair features a 300 lb rating and is available in 7 colors and a wide variety of seat and back upholstery. You can order your OM5 Active Chairs with or without arms and either with a Black or Silver base finish. You can also make this chair into an all-in-one chair with a tablet arm and book tray. We love the fit and feel of the OM5 Active.
