Security Camers and Viewing

Video Management and Storage

Automatic Contact Notification

Body-Worn Cameras for Administrators

# Physical Security
## SOLUTIONS

Visitor Management Building Access Control
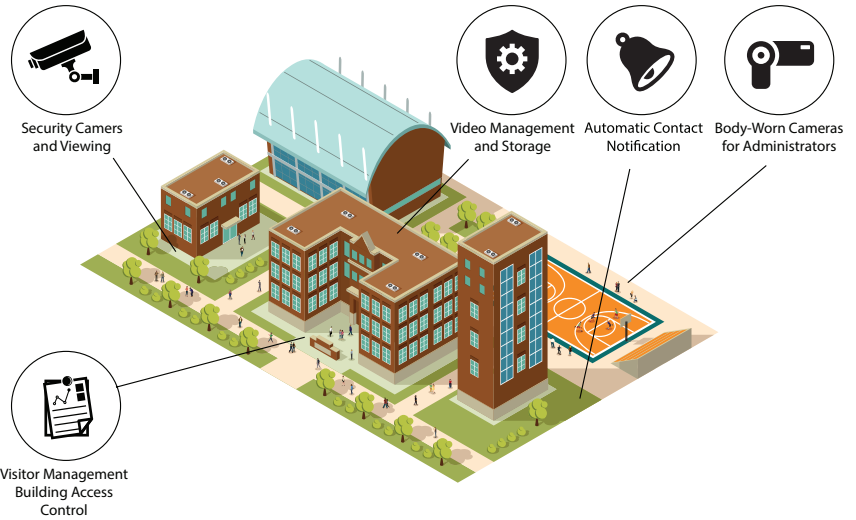

**Is it time for you to have a physical security assessment?** Howard can do it.

**Is your video surveillance footage clear enough to identify individuals?** With today's advanced technologies, Howard will help you enable video surveillance with cutting edge clarity to allow you to better identify people, car tags, behavior, etc. protecting your students and your institution in the safest manner.

**Is your video surveillance storage suitable for your needs?** Are you keeping adequate footage (for example, 30 days' footage) without it overwriting? Howard will help ensure you are equipped with ample storage capabilities.

**Does your emergency notification system alert local law enforcement?** Howard provides emergency notification solutions and ensures that appropriate personnel are notified using a variety of communication methods.
