

Sometimes it is what's on the outside that counts.

With our new **Verity series notebooks**, you now have the option of **expressing your own personality** by choosing one of our many "skins" to go on the top of your notebook. It's simple, and it's easy. First, choose the Verity notebook that you would like to purchase. Second, look through our vast variety of custom skins and **choose the one that fits your personality**. Third, enjoy your stylish new notebook that represents your inner character. For those of you who would like to customize your Verity notebook even further, you also have the option of having your own custom images placed on your notebook; however, certain guidelines and restrictions apply. **Please see below for important details.**

For more skins, please visit us online at www.Howard.com.

Guidelines and restrictions for personal images and logos.

It is important to ensure that you own the graphic, artwork, or logo that you want to include on your notebooks. For example, the image is a photo you took, a logo you designed, or a logo you paid someone to design for you, etc. If you do not own the image you want to use, you are responsible for obtaining the high resolution graphic, artwork, logo, etc. You are also responsible for paying any associated costs (e.g. royalties, re-print permissions). For example, if you want to order 30 notebooks with the NASCAR® logo, you must contact NASCAR®, obtain the high resolution image of the NASCAR logo, and pay any fees for printing the logo on the 30 notebooks. Please note that we, Howard Industries, Inc., reserve the right to request written documentation from all applicable parties ensuring that you have usage rights.

Custom Skin Specifications

Laptop Insert Sizes: For size 14.1"W For size 15.4"W	305mm x 190mm Corner radii 2mm 335mm x 210mm Corner radii 2mm
Bleeds	For a bleed on a page, extend the image past the edge by .25 inches and include crop marks to indicate the placement of the image's edge.
File Type	Please submit files as Adobe Acrobat PDF files. This ensures your fonts, graphics, and layout will be printed as intended.
Graphic Files	Where possible and appropriate, vector graphics are preferred to prevent pixilation. For best results, bitmap graphics should be EPS or TIFF and in the RGB color space. Graphics should be at least 120dpi. Optimal resolution is 200dpi.

Terms and Conditions

The terms and conditions set forth herein are in lieu of any and all other terms and conditions expressed or implied. Howard Industries, Inc. and all of its divisions reserve all rights regarding print approval for the images provided by the Purchaser. (We will not print any images or wording of a vulgar or pornographic nature that could negatively impact HI, any HI division or their respective employees, any of our customers, or prospective customers, etc.) In no case shall Howard Industries, Inc. or any of its divisions assume any responsibility or liability from any direct, indirect, or consequential damages for the usage of an graphic image or wording provided by the Purchaser or breach of these or any other terms and expressed or implied whatsoever.
