

Safe, Secure, and Reliable.

Developed hand-in-hand with K-12 and higher education professionals, the MobileLoc24 is specifically designed to meet the growing needs for reliable, convenient, and secure storage of notebook computers. This cart accommodates up to 24 notebooks and features pull-out notebook trays that offer a convenient wire management system that keeps wires and cords neatly out of the way. Its sturdy handles allow easy mobility and control, while the two-point door locks provide the safety and security you expect.

Experience the Howard advantage.

Sturdy handles allow easy mobility and control.

Side-mounted cycle charger featuring a timer for variable charging.

Heavy-duty balloon wheels roll easily and quietly.

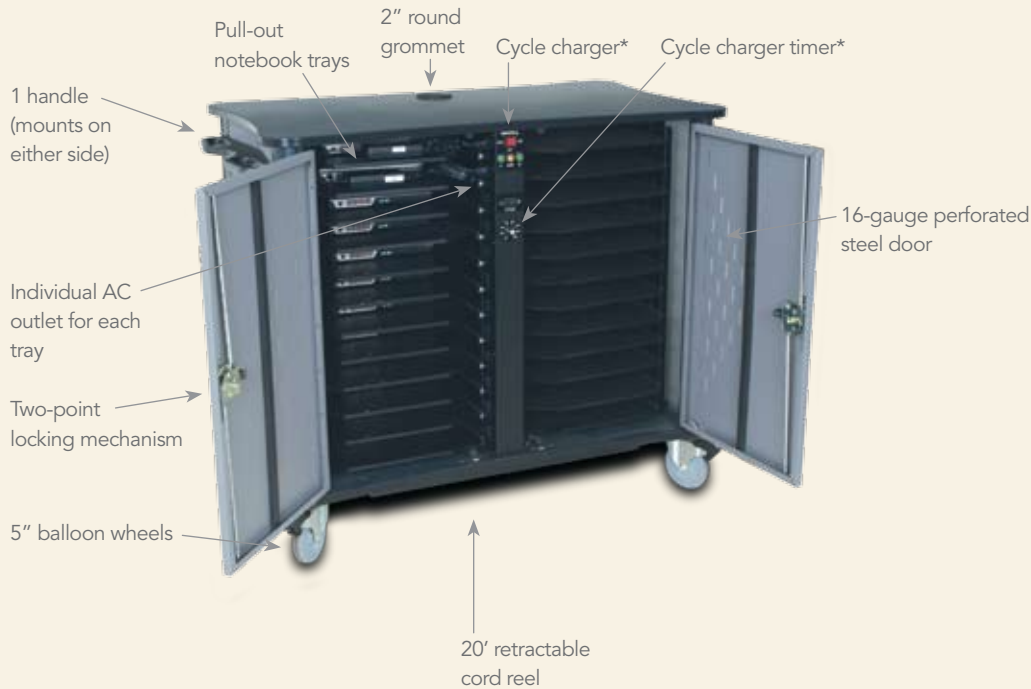

Features and Benefits

- Notebook trays pull-out from both sides, allowing quick access to notebooks and cables
- Four 5" heavy-duty locking balloon casters roll easily and quietly on uneven surfaces
- One standard ergonomic handle provides control and mobility
- Standard 20' Retractable 13-amp power cord reel provides quick and easy power-access
- Low-profile, flush-cup, two-point locking doors on the front and back provide security and easy-access to the front and rear of the unit
- Cycle charger with timer and conveniently-located power outlets provide easy charging
- Standard six-outlet power strip with surge protection (1,000 joules) and lighted on/off switch can be used for peripherals and other accessories
- Scratch and impact resistant 1-1/16" High pressure laminate worksurface
- Ventilated side and door panels help dissipate heat
- Cable grommets and wire management located in each tray keep wires and cords organized
- Guaranteed to be free of all defects in materials and workmanship with a 5-year warranty

MobileLoc24 Notebook Storage & Recharging Cart

Standard MobileLoc24 Features

Convenient wire management located in each tray. (twelve trays on each side)

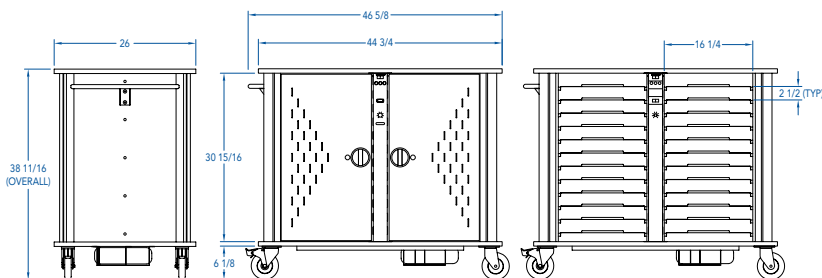

Wire management also located in tray on student side

*The cycle charger provides switching between auxiliary power, notebook power, and off. The timer dial allows cycle charging from 15 minutes to 4 hours. To constantly charge one side or the other, set the switch to A or B side. Lights above the switch indicates which side is charging.
