

TELEHEALTH SOLUTIONS

TELEHEALTH SOLUTIONS

Howard Medical's virtual care and telehealth offerings range from easy-to-use kits to full all-in-one solutions for telehealth related communications. Our product offering has combined high level industry needs with the precision engineering you will come to expect from Howard Medical. Our uniquely designed technology is functional and practical for all sizes of telemedicine projects.

TELECARE

Our Telecare Cart is our flagship model supporting a unique array of telemedicine use cases. With allocated device storage, multiple camera options, and a versatile external I/O panel.

TELECORE

Our Telecore Cart is the optimal telecommunication solution with the innovative blend of convenience, customization, quality engineering, and affordability. This versatile 3 in one solution captures many telemedicine facility needs.

KUBI SWIFT

Kubi Swift is a significant part of Howard's virtual care product line. Our non-powered Kubi swift cart combines two lightweight devices into a mobile teleconsult platform. The Kubi can be controlled remotely when combined with a software application.

WALL-MOUNTS

WALL-MOUNTED CABINETS

Howard's Telemedicine Cabinet is a strategically mounted virtual care solution for increasing workflow and efficiency. Its modular design provides users with readily available access to your telecommunication platform and allows quick access to diagnostic equipment for examinations. This cabinet provides a unique and secure way to enhance telemedicine anywhere sufficient wall space is available.

FLEX MOUNT

Howard's Flex Mount was designed to support a wide range of hardware devices and allows for multiple mounting configurations to empower your medical staff for use and efficiency. The telehealth ready flex uniquely keeps the same profile while providing a way to service more areas of practice and telemedicine needs. This new modular endpoint will assist in building your telehealth program by allowing you to choose the proper placement and configuration for the facility needs.
