

A better way to learn

Teaching is changing. Fast. Old-school techniques and tools are no longer up to the task. Today, an effective education provides students with the true comprehension they will need to face the challenges in today's world.

Whether it's whole-group or small-group instruction, formative assessment, collaborative learning, or personalized instruction, Mimio software and hardware help teachers put these strategies into action, easily and affordably. Use this interactive guide to Mimio to better understand how our innovative solutions can solve your challenges.

A Message from Mimio

Thank you for requesting information about Mimio teaching solutions.

From a small start-up in an MIT dorm room some 17 years ago, the Mimio product line has grown to include front-of-the-classroom displays, numerous interactive accessories, and a comprehensive collaborative classroom software suite. This MimioClassroom™ family of products is designed to make teaching easier and to give students a better way to learn. Each tool provides powerful options for enhancing individual teaching styles, as well as ways to simplify and save time on everyday classroom tasks. MimioClassroom products work equally well on their own or in combination with other technologies, so you can choose what your schools need and what your budget allows.

The desire to solve educational problems through innovative solutions forms the basis for all Mimio products. As a member of the original team, I am personally proud to witness how far we have come and how many educators and students we help every single day. Please use this interactive brochure to explore the unique benefits of the MimioClassroom family. We also offer a vibrant online community at mimioconnect.com, where your teachers can download and share content with other educators for free. And our online and on-demand training options can help your teachers get the most out of their Mimio products.

Thanks again for your interest in our products.

Sincerely,

The Mimio Team

“ Since we began using the MimioClassroom products... teaching is **more effective**, **learning is enhanced**, **scores are increasing**, and excellence is being achieved.”

Lisa Cundiff
Instructional Technology Director

Better solutions. Better results.

Mimio products incorporate easy-to-use technology that empowers teachers and engages students. And while students respond to this better way to learn, teachers discover it's a better way to teach. Experience flexible, affordable, and effective solutions for the way you teach today.

Teacher-Led Learning

Mimio interactive whiteboard technologies offer an engaging, affordable, and easy way to provide teacher-led instruction. Whether your school needs a portable or a fixed interactive whiteboard, an interactive touch projector, or even a brilliant, high-definition LED display. Mimio has a solution to fit your needs and budget.

Assessment of Learning

Mimio gives you options to measure student understanding in real time. The MimioVote™ assessment is a tool that students actually enjoy using — and it makes assessment easier on your teachers and your budget. Already own mobile devices and want to make the most out of them? Use them with the MimioMobile™ app for assessment via numeric, short-answer, and short-essay questions. Open-ended response questions will help students practice for the Common Core Assessments.

Collaborative Learning

Mimio tools enable students to learn more effectively through collaboration in a student-centered, interactive environment. The MimioPad™ wireless pen tablet and MimioMobile app for Apple and Android mobile devices let students share their group work in real time. Mimio's tools help teach the collaboration skills so important for success in today's classroom.

Personalized Learning

Mimio's interactive tools allow teachers to present lessons that are effective and engaging. Our collaborative software and app allow students to work together to gain a deeper understanding of concepts. And our assessment tools make it possible for teachers to really understand what individual students are learning, so they can customize the learning environment to meet each student's needs. Truly creating a better way to learn.

Meet the Mimio Classroom

It's a world-class classroom. And with teaching solutions from Mimio, it really isn't as out of reach as you may think.

We are mindful of budgets and your need to leverage the products you already have. Whatever your classroom's current configuration, Mimio products work with it. Mimio hardware, software, and mobile app let you purchase only what you need now and continue using the tools you currently own. You can expand as your budget allows and your needs change and grow.

Our technology and software are supported by training resources and exceptional customer support. And our vibrant online community at mimioconnect.com lets educators discuss ideas and share lessons with their peers.

A better way to learn. Mimio.

MimioTeach interactive whiteboard

Interactive whiteboards can be expensive and complicated, and most must be permanently installed. Not anymore. Now teachers can place a small bar on the dry erase boards they already have, push two buttons and – just like that – a full-featured interactive whiteboard. Spend less without getting less.

“It comes out of the box and just works. It’s just a really versatile tool. And it captures the kids’ attention.”

Jim LeMasters
Technology Instructor
Warsaw, IN

It’s a better way to learn. The MimioTeach™ interactive whiteboard includes all the hardware and software you need to launch your interactive classroom, so you get more for your budget dollars.

The small, portable MimioTeach bar attaches magnetically to a typical dry erase board. When your teachers plug the MimioHub™ wireless receiver into their computer and connect the computer to a projector, you can enjoy a projected display area up to 5 feet by 8 feet. Your lessons come to life, easily.

The MimioTeach interactive whiteboard comes pre-packaged with award-winning MimioStudio™ classroom software, the power behind

all MimioClassroom™ products. It integrates seamlessly with all other MimioClassroom products, so adding on the other tools is quick and easy.

The MimioTeach interactive whiteboard gives you all these advantages:

- A complete interactive whiteboard system that uses the dry erase boards and projectors you already have.
- Straightforward interface lets you get up and running in minutes.
- Full-featured MimioStudio software for creating engaging interactive lessons.
- Lightweight and portable, so you can move it between classrooms, and store it safely.

MimioProjector 320LT laser touch projector

Touch—it’s the way the real world works. Now it can be the way your interactive classroom works, too. Touch to draw. Touch to write. Touch to move, scale, and rotate. With up to 10 users working at the same time. All this, plus the reliability of lasers, which means no bulbs to change — ever.

“[MimioProjector] provides educators with an easy-to-use, all-in-one solution that effectively delivers collaborative classroom instruction and meets all my students’ needs.”

Lynn Reedy
Technology Specialist

What could be more natural than touch?

It’s the new standard for smartphones and tablets. It’s second nature to today’s students, so touch requires almost no training.

The MimioProjector™ 320LT ultra-short-throw projector brings collaborative, 10-touch interactivity to your classrooms with images as large as 115 inches!

Its laser illumination saves you time and resources. There’s no lamp to fail, no lamp to change. And there’s a 20-year laser life span.

- A full-featured hardware and software solution.
- Comes with award-winning MimioStudio™ classroom software and the MimioMobile™ app.

- Software and app enable collaboration and assessment either at the front of room or on almost any student device.
- A solution that makes it easy to gauge and personalize student learning.
- Laser projection means no bulbs to change — ever.
- Analog and digital audio/video connections ensure compatibility with virtually any PC.
- Runs on Mac, Windows, and Linux.
- Ethernet LAN connectivity, for central management and control.

Up to ten students can work together at the front of the classroom with touch interactivity.

REQUEST A DEMO

MimioProjector 3200LT ultra-wide projector

Lessons come to life, as large as 11 feet wide, with the MimioProjector™ 3200LT ultra-wide touch projector. The ultra-wide, touch-enabled area allows up to ten students to simultaneously collaborate in beautiful, engaging clarity.

“The MimioProjector allows me to have a huge interactive collaborative space for my students – and I still have my whiteboard.”

Travis Rink
Science Teacher

Imagine being able to create an interactive area as wide as 11 feet! Our ultra-wide projector brings large-scale collaboration to the classroom.

The MimioProjector 3200LT ultra-wide projector makes stunning collaborative, 10-touch interactivity* possible!

Its laser illumination saves you time and resources. There’s no lamp to fail, no lamp to change. And there’s a 20-year laser life span.

- A full-featured hardware and software solution.
- Comes with easy to learn and easy to use MimioStudio™ classroom software and the MimioMobile™ app.
- The combination of our software and app enable collaboration and

assessment either at the front of room or on almost any student device.

- A solution that makes it easy to gauge and personalize student learning.
- Easily work on the large interactive area individually or in small groups.
- Laser projection means no bulbs to change — ever.
- Analog and digital audio/video connections ensure compatibility with virtually any PC.
- Runs on Mac, Windows, and Linux.
- Ethernet LAN connectivity, for central management and control.

Up to ten students can work together on an ultra-wide, interactive, touch-enabled area at the front of the classroom.

REQUEST A DEMO

MimioProjector 2801 interactive projector

Want your projector to be more than just a projector? If you're interested in a simple and affordable way to bring interactive teaching into the classroom, get the MimioProjector™ interactive projector. Just mount, plug into a computer, and bring your lessons, graphics, and images to life on a conventional dry erase board.

"[MimioProjector] is a strong contender... as either a non-interactive or interactive 1280 x 800 ultra-short-throw model, and it's well worth a close look."

Marc Davidson
ProjectorCentral.com

You know your students live in a world of technology. So you know technology can help hold their attention. But you have a budget. If your classrooms already have dry erase boards but do not have projectors, the MimioProjector interactive projector lets you bring interactive teaching into your classrooms without breaking the bank.

- An affordable way to bring interactive technology into classrooms that don't already have projectors.
- Includes the MimioStudio™ classroom software that controls all MimioClassroom™ products. Makes it simple to create and deliver engaging lessons.
- With the two included pens and Windows 7 or higher*, two students can simultaneously interact with the same projected image, enhancing collaborative learning.
- NEW: Up to ten pens may be used simultaneously by buying additional pens from Mimio.
- Ultra-short-throw design reduces shadows on the whiteboard.
- NEW: Even brighter and more vibrant images with 3100 lumens.
- Bulb can be replaced without dismantling the MimioProjector device. Up to 5000 hours between bulb replacements.
- Can be ordered as a non-interactive, conventional projector, and later upgraded to full interactive status – without dismantling it.

Multi-pen functionality, field upgradeable. Sharp WXGA images.

REQUEST A DEMO

MimioProjector 280T touch projector

Who says you can't have it all? If you're interested in an easy and affordable way to bring touch-enabled collaborative learning into the classroom, get the MimioProjector™ touch projector. Now you can turn your conventional dry erase boards into touch boards!

“[MimioProjector] provides educators with an easy-to-use, all-in-one solution that effectively delivers collaborative classroom instruction and meets all my students' needs.”

Lynn Reedy
Technology Specialist

You know your students live in a world of touch technology. So you know technology can help hold their attention. But you have a budget. If your classrooms already have dry erase boards but don't have projectors, the MimioProjector touch projector lets you bring collaborative 10-touch interactivity into your classrooms, without breaking the bank.

- An affordable way to bring multi-touch, interactive collaborative learning into classrooms that don't have projectors.
- Creates an interactive touch area as large as 100 in. diagonal. Allows up to 10 single-point touches or 5 dual-point touches with gestures.
- A full-featured solution that includes

MimioStudio™ classroom software.

- A true HDMI experience, with stunning images and audio – no need for separate speakers.
- Using styli or finger touch, multiple students can simultaneously interact with the same projected image, enhancing collaborative learning.
- Laser Curtain Module is powered directly from the projector – no extra wires or complicated installation.
- Easy alignment – takes less than a minute with the *Visible Light Alignment* feature.
- Bulb can be replaced without dismantling the MimioProjector device. Up to 5000 hours between bulb replacements.

Styli (included) or finger-touch capable. Sharp WXGA images.

REQUEST A DEMO

MimioDisplay touch display

Deliver great instruction and engage your students in a more collaborative learning experience with this remarkable visual display. Up to ten students can work together on the large, LED-illuminated, touchscreen display at the front of the room—now available in 4K UHD .

“The MimioDisplay takes classroom lessons to the next level! And with the size and brightness of the display, everyone can see it from anywhere in the room – even with the lights on.”

Jason Schmidt
Instructional Technologist

Students will be wowed by the vibrant MimioDisplay™ touch display at the front of the room. Choose from the HD 55", 65", 70", **NEW 75" 4K**, or **NEW 84" 4K models!** You get all the features of a touch-driven interactive whiteboard with the simplicity and elegance of a state-of-the-art, high-definition (HD) or ultra-high definition (4K) LCD display.

- Huge size and LED backlighting make your lessons more visually striking and memorable, even in large classrooms.
- Up to **ten single-point touch users or five dual-touch and gestures users can work simultaneously** with *Touch 360°* interactivity, driving collaborative learning.*

- Styli and fingers can both be used in any combination, for quick and easy interactivity.
- Built-in stereo speakers eliminate the need for a separate audio system.
- Full-featured solution includes MimioStudio™ classroom software, to easily create and deliver engaging lessons.
- Complete integration with other MimioClassroom™ products, including our MimioMobile™ collaboration and assessment app.
- The surface is made of low-glare and low-friction glass, making this display easy to see and a smooth touch experience.

Students can use finger touch or styli to collaborate at the front of the room.

[REQUEST A DEMO](#)

MimioBoard 780T & 870T touch boards

A touch board that offers collaborative learning and an unprecedented touch experience. Up to six individuals can work together at this easy-to-install board. Their control and touch experience will remain uninterrupted, no matter where they work on the board. Students and teachers can focus on learning – not on the technology.

“Knowing that up to 6 students can work independently and collaboratively on this board is incredible! The learning potential exceeds any other technology I’ve had the opportunity to work with.”

Jen Maher
Computer Teacher
St. Patrick’s Elkhorn

The MimioBoard™ touch board enables collaborative learning with 6-point Touch 360° interactivity. Up to six single-point touch users or three dual-touch and gestures users can engage in small-group or whole-group learning simultaneously, writing or manipulating objects above, below, or parallel to one another. Whether you chose the 78” or 87” model, you get a projection-optimized touch board with an erasable surface. That means your touch board can also be used as a conventional whiteboard.

- Includes MimioStudio™ classroom software, to easily create and deliver engaging lessons.
- Up to 6 users or 3 dual-touch and gestures users can work

together interactively at the same time with the class, increasing student engagement and driving collaborative learning.

- Lessons come to life in stunning quality on this projection-optimized Porcelain-on-Steel surface.
- The lightweight touch board typically installs in less than 10 minutes with included mounting brackets.
- Completely integrated with other MimioClassroom™ products, including our MimioMobile™ app for collaboration and assessment.
- Unique design stands up to classroom use.

Up to 6 students can use finger touch or styli to collaborate at the front of the room.

MimioStudio classroom software

Maybe you'd like more interactive teaching tools. But maybe your teachers don't have the time to learn dozens of software programs. And maybe your budget wouldn't allow it, anyway. Not to worry. Now there's a single, easy-to-learn collaborative classroom software solution that can be used with any interactive whiteboards you already have.

"The MimioStudio Collaborate feature makes small-group work even more meaningful when students can share their work in the front of the classroom."

Melissa Haney
First-Grade Teacher

Award-winning, MimioStudio™ software provides a single solution that seamlessly integrates all MimioClassroom™ products, and also powers virtually any type of interactive display from any other manufacturer. The NEW, expanded Collaborate feature allows full classroom options (up to 50 student devices) for collaborative learning, with any mix of MimioPad™ tablets and mobile devices running the MimioMobile™ app..

- With the expanded Collaborate feature, students can work interactively on the same activity. Teachers can pause student sessions, share them in any combination on the front-of-the-class display, or hide all the sessions
- Includes MimioStudio Gradebook, which automatically records multiple-choice, numeric, and short-answer responses to MimioVote™ assessment questions and eliminates the need for teachers to hand-grade tests.
- Students can use mobile devices equipped with the MimioMobile app
- for assessment via numeric, short-answer, and short-essay questions.
- Open-ended response questions help students practice for the Common Core Assessments.
- Designed to be used with interactive whiteboards and displays from other manufacturers,* with support for pens, single touch, multi-touch, and gestures.
- Lets you create lessons from SMART, Promethean, PowerPoint, Common File Format (IWB), and video files, so teachers can use the content and resources they already have.
- Connect up to three mobile devices using the MimioMobile app, free with any MimioStudio license. Connect every mobile device in the classroom with the purchase of an annual MimioMobile license.

Create effective and exciting lessons for whole-group and small-group learning.

REQUEST A DEMO

* Requires a user or site license.

MimioMobile application

Get the most out of the devices you already have with the MimioMobile™ application. A single MimioMobile annual license for a teacher's classroom computer lets every student with a device interact with the lesson displayed on the interactive whiteboard.

“The MimioMobile app allows students to actively participate from anywhere in the classroom. And they can even answer assessment questions with their devices.”

Paul Gigliotti
History Teacher

The NEW MimioMobile app lets students simultaneously contribute to the learning environment.* Teachers simply link the MimioMobile app to their MimioStudio™ classroom software, and a variety of devices can be used together – Apple, Android, or any device with a supported Web browser.**

- The MimioMobile app allows students to move easily from whole-classroom instruction, to small-group learning, to individual instruction with any MimioStudio activity.
- Show any combination of the students' work on the front-of-the-class display, for greater collaborative learning.
- Different device types can be used at the same time: Apple and Android mobile devices, devices with

a supported Web browser, MimioPad™ wireless pen tablets, and MimioVote™ assessment.

- Connect up to three mobile devices using the MimioMobile app, free with any MimioStudio license. Connect every mobile device in the classroom with the purchase of just one annual MimioMobile license.
- Teachers can create assessments with short-answer, short-essay, numeric, and multiple-choice student responses, which will help to prepare students for Common Core State Standards Assessments.
- The MimioMobile app connects within seconds to the teacher's MimioStudio software – no need to remember IP addresses or complicated logins.

Get the most from your devices – including Chromebooks, Windows and Mac laptops, Windows Surface tablets, and more, with truly collaborative learning.

[REQUEST A DEMO](#)

MimioPad wireless pen tablet

The best way for teachers to manage the classroom is to become part of the classroom – to walk around and provide individual attention. Now teachers can break free from the front of the classroom while they control the interactive whiteboard from anywhere in the room. What’s more, students can now collaborate right from their desks. Teaching is easier when the students are engaged, so let them participate. It’s a better way to learn.

“The MimioPad allows me the flexibility to move around my classroom. It’s so much easier to assist my students and facilitate learning.”

Tricia Fontenot
Third-Grade Teacher

Teachers rejoice! With the new MimioPad™ wireless pen tablet, you can control your interactive whiteboard from anywhere in the classroom. And the new Collaborate feature of MimioStudio™ software allows teachers to conduct collaborative activities using MimioPad tablets as well as Apple and Android mobile devices equipped with the MimioMobile™ app.

- Wireless convenience to control any Mimio interactive display from anywhere in the classroom.
- Frees teachers to move about, so they can help individual students and manage the classroom more effectively.

- New MimioStudio Collaborate feature allows multiple tablets to be controlled by students and viewed on the primary classroom display at the same time.
- Can be used in combination with any number of Apple and Android mobile devices equipped with the MimioMobile app.
- Plug-and-play simplicity right out of the box.
- 16 shortcut keys to the common functions of MimioStudio classroom software.
- Convenient battery-free stylus.

Collaborative learning made easier.

[REQUEST A DEMO](#)

MimioCapture ink recorder

Increase teacher productivity without increasing workload. Teachers can automatically record whiteboard notes and graphics right to their computer, as they're teaching, without needing a projector. That means they can spend time developing lessons rather than creating handouts. For students, it means more time paying attention and less time taking notes.

"... makes it extremely easy to capture my lesson for students to refer to later ..."

Kurt L. Kohls
School Technology
Specialist
Fairfax, VA

Imagine teachers using dry erase markers on any whiteboard, and automatically saving what they write – in color – to use again, to share, or to edit later.

The NEW MimioCapture™ ink recorder extends the functionality of the MimioTeach™ interactive whiteboard or the MimioBoard™ interactive whiteboard by allowing teachers to save whiteboard notes and drawings directly to their computer in four colors, automatically. That lets them build a library of favorite lessons to use again and again. Teachers can give them to students to refer to later, or give them to students who missed the class. Students can pay better attention, keep up more easily, and participate more because they don't have to write everything down.

The NEW MimioCapture ink recorder is even more portable and easy to use.

Carry it from room to room, and charge it with a simple USB connection to your computer. The convenient magnetic pen holder affixes to any steel surface, keeping the MimioCapture pens and eraser close at hand during class.

- Save, edit, and print whiteboard notes for students anytime, in a variety of formats (including PDF, JPEG, and HTML).
- Add student drawings to lessons on the fly.
- Convert handwriting into font-based text with one click.
- Switch dynamically between capture mode and interactive mode.
- Reuse the same notes for multiple classes, or send the notes to absent students.
- No projector is needed to enjoy MimioCapture functionality.

Tabletop recharging tray and convenient magnetic pen holder.

REQUEST A DEMO

MimioVote assessment system

Your teachers are doing what they're supposed to do – teach. Now they want to know if the students are learning. They can get instantaneous feedback, or easily pre-test and post-test to monitor progress. And while the teachers are getting the answers they need, the students get to have some fun.

“... really has allowed us to do real-time formative assessment with students.”

Michael Bednarz
Director of Curriculum
Stafford Springs, CT

With the MimioVote™ assessment, the results are immediate and the feedback has value. Teachers know who is learning and who needs help. And when students don't have to think about how to use the device, they can concentrate on answering the questions.

The intuitive design provides instantaneous teacher-led or self-paced evaluation, without the hassle typically found with ordinary assessment systems. Teachers get accurate, real-time results and eliminate the extra workload of manual test correction. And they can download results into spreadsheets and lesson plans to easily track learning.

- Quick-poll during a lesson, to see who's getting it and who needs some help.
- Reduces student confusion by illuminating only the answer buttons needed for each test.
- Ergonomic design allows one-hand or two-hand operation of the handsets – or place them flat on the desks.
- Excellent testing options for all grades.
- Easily import standard tests and publisher's content.
- Compatible with MimioStudio™ templates and Microsoft PowerPoint.
- Automatic recharging means tech directors don't have the hassle of battery replacement.

Place handsets anywhere in the recharging storage tray, and they renumber automatically.

[REQUEST A DEMO](#)

MimioView 340H document camera

High-definition pictures and live video can really engage students and drive home a lesson. And your teachers can do it with plug-and-play simplicity. They take the document camera out of the box, attach a single cord, and it's ready to go. Teachers don't need to learn additional programs because it automatically integrates with MimioStudio™ classroom software, and that means students can begin their learning immediately.

“The MimioView is excellent for transforming any object – flat or 3D – into interactive electronic content that I can bring right into my lesson.”

James Taschek
Middle School Teacher
Telluride, CO

Take all the wonder of interactive lessons and activities, and launch it even farther by adding high-definition (HD) pictures or live HD video. This is the most user-friendly document camera available. No tangle of wires or endless cords to plug in. One USB plug does it all. The NEW MimioView™ 340H document camera also automatically integrates with MimioStudio software, and instantly captures HD pictures and live HD video to incorporate into your lessons. Teachers can display, freeze, annotate, and save all visual content.

- Plug into a single USB computer port for both power and data.
- No external power sources or wall cords needed.
- Autofocus by pushing a single button.
- Capture both dimensional objects and flat documents.
- Two adjustable light sources.
- Save work by easily annotating images and creating files to use over and over.
- Enjoy exceptional detail with high-definition 1920x1080 imaging.
