

Engage

Modern Classroom Management

Engage provides modern management for the modern classroom by seamlessly connecting today's teachers and learners - perfect for any initiative, including BYOD and 1:1.

Reduce Administrative Tasks

Easy importing of student data makes Engage a reliable tool that can be used for daily instruction.

Maximize Instructional Time

With a simple click Engage takes control of devices, shares content, and encourages attentive learning, allowing teachers and students to get the most of each class time.

Increase Student Participation

Cultivate learning by increasing student participation through tools such as Device Mirroring, Eyes Up Front and Messaging.

Check for Understanding

Instantly get a pulse of classroom learning with the Engage polling feature, allowing for proper differentiation of instruction and re-teaching.

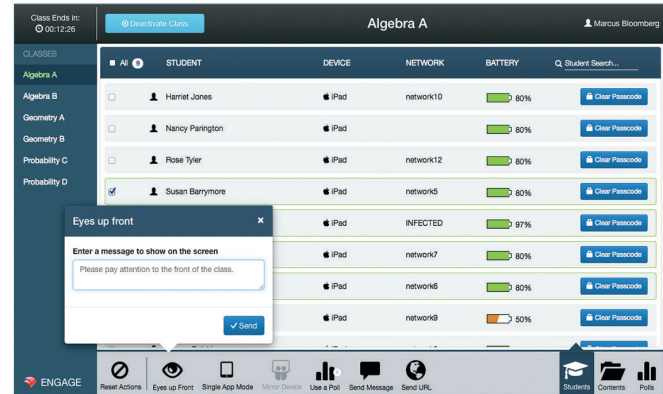

Get a closer look at just a few of the many powerful features

Single App Mode

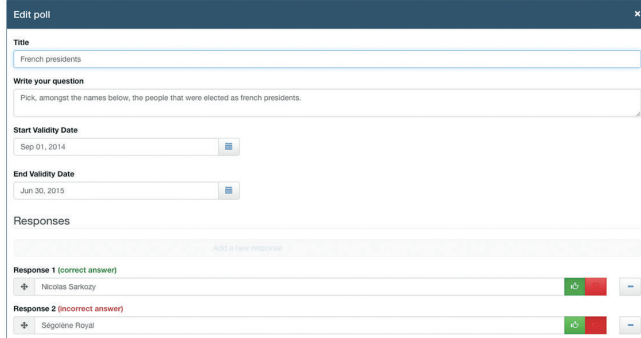

Lock students into a specified App to minimize distractions and encourage attentive learning.

Eyes Up Front

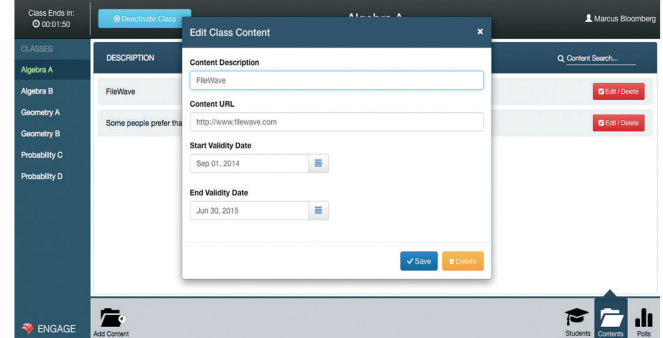

Teachers can “black out” / lock student device screens to direct students’ attention on the teacher.

Polls

Create “pop” quizzes and share within seconds to gain immediate feedback and adjust instruction as needed.

Content

Centralize and share course content and easily present it to students in a week-by-week planner-view.
