

HP Device as a Service (DaaS)

Smart, simplified computing solutions for today's world

Make your company more efficient, improve the employee experience, and free up IT resources.

Multi-platform environments can be challenging

Device proliferation and the addition of personal devices entering the workplace has challenged ITDMs in maintaining a secure and manageable IT environment. Multiple operating systems on different types of devices have created new entry points for security breaches and made it more difficult to proactively manage the IT environment. HP DaaS makes it all easier by managing the diversity of multi-OS desktops, workstations, and mobile devices so your business can operate at its full potential. ¹

Introducing HP DaaS

Boost employee productivity and IT efficiency with world-class computing solutions from HP DaaS. Get everything you need and nothing you don't, from hardware and accessories to lifecycle services and support with one price per device.

The right devices for the job

Impress the entire organization with devices hand-selected for the way employees work—regardless of OS—with a choice of PCs, notebooks, and mobile and specialized devices. With HP DaaS, your device and accessory mix can be tailored to the unique needs of each team member.

Our available plans include global support, next-business-day repair or replacement services, and accidental damage protection, so employees can work worry-free wherever they go.²

Management with insight

HP DaaS plans include actionable analytics and insights plus proactive management to improve end-user productivity and IT efficiency.² Actionable reports help you preemptively identify, predict, and address issues before they occur.³

Actionable reports for more proactive management:

Security compliance

Software inventory

Battery life*

Hard drive*

CPU utilization*

*Windows devices only

Analytics and proactive management

INSIGHTFUL ANALYTICS AND REPORTS

Analytics and actionable reports provide your organization with guidance to better manage your fleet and take proactive action. Reports include security compliance, hardware and software inventory, and important device health data.⁴

Example dashboard

PROACTIVE MANAGEMENT WITH HP SERVICE EXPERTS

HP DaaS's unified endpoint management service enables you to offload day-to-day IT management functions. Our specialized Service Experts use HP's cloud-based analytics and endpoint management tools to monitor and manage multi-OS devices and applications, enforce security policies, find and protect data on lost devices, and provision Wi-Fi access.^{5,6}

Flexibility for your business

Don't pay for more than you use. Choose from simple but complete plans that adjust to meet your changing IT environment and workforce.⁷ Tailor your plans with additional lifecycle services and refresh devices as needed with the convenience of a single price per device. Whether you are a young growing company or a global enterprise, there is a plan that's right for you.

With HP DaaS, you get:

A wide variety
of device choices

Technical support and
rapid repair or replace

Actionable analytics and
proactive management
capabilities

Flexible plans
with a simple
price-per-device model

Lifecycle
management
on a global scale

One-stop solution

HP DaaS provides a one-stop solution that combines hardware and lifecycle services to make your company more efficient, improve the employee experience, and free up IT resources—all with a simplified, predictable pricing model.

END-TO-END LIFECYCLE SERVICES

Our full portfolio of service options covers every phase of the device lifecycle—from start to finish—for HP devices and other brands. HP, or authorized DaaS partners, can tailor services to your specific needs.

DISCOVER AND DESIGN

Create your ideal tech environment with our assessment, design, and planning services.

CONFIGURE

Save time and increase productivity by having your custom images and settings installed.

DEPLOY

Hit the ground running by letting HP handle everything from logistics to installation to data migration.

DISPOSE AND REFRESH

Keep your technology current by letting HP securely and responsibly manage hardware that's at the end of its lifecycle—and then deliver new equipment to your users.

MAINTAIN

Relieve your IT staff of maintenance hassles by letting HP handle onsite service, accidental damage protection, and more.⁷

OPTIMIZE

Get the most out of your IT environment through helpdesk services, priority support, and staff augmentation.

HP DaaS

IT simplified. Resources maximized.
