Modern learning requires classroom collaboration that goes anywhere – so students can participate in learning anytime – inside and outside the classroom. Howard Industries makes classroom collaboration secure, reliable and productive with best-in-class notebook PCs and tablets configured for educational advantage.

Give students and educators the technology they need to advance today's complex curriculums. Howard Industries configures HP ProBook PCs powered to deliver A+ performance with Windows operating environments architected for access and security.

The HP ProBook 11 Education Edition helps educators engage with and connect to students and curriculums with more reliability and complete security. It comes with the classroom-ready collaboration tools that are essential for sharing information and accessing educational materials – on demand – everywhere.

Designed for collaboration

To accommodate the unique needs of K-12 educators, our PCs are configured with all the collaboration tools that you need to engage. From touch screens and webcams to wireless connectivity, the HP ProBook 11 Education Edition brings lesson plans into clear view.

Built for performance

Because students are on the go, the HP ProBook 11 Education Edition is built from durable materials like molded rubber trim and a spill-resistant keyboard and touch pad. It's tested to perform reliably despite drops, bumps and spills, so your students can spend more time using their PCs and less time worrying about them.

Configured for outcomes

Each PC comes with the HP School Pack Software 2.0 that provides digital tools to redefine how educators lead the classroom. It provides teachers with purpose-built software that helps drive insights and analytics to track student performance and manage student progress, while students will appreciate the digital learning tools that support in-class assignments.

Secured for compliance

We make it easy to track and manage the security of your PC fleet with onboard security that helps you track, locate and secure PCs in the event they are lost or stolen. And web-based security tools let you remotely protect PCs and their users with a single, easy-to-use console.

Modernize your classroom with Howard Industries

Howard Industries is an HP Gold Partner that can configure HP ProBook tablets and PCs for your classroom needs. We understand the unique requirements for 21st-century classrooms, including the need to for students to connect to life beyond the chalkboard. We offer a range of technology solutions to help educators inspire and teach students with purpose-built technology ideal for problem solving, critical thinking and self-direction.
