

EAST COAST SCHOOL CONSTRUCTION AUTHORITY

FAST FACTS

Established in **1988**

Projects have created **5,692** school seats citywide

5-year capital investment of **\$11B**

Intel Inside®
Powerful Solution Outside.

THE SITUATION

Mission Support — A construction agency required a hardware refresh to support scoping, planning and building public schools

Superior Performance — Devices needed to be capable of running sophisticated 3D design software such as Revit and AutoCAD with high performance and zero latency

Time-saving — Fast deployment was vital to meet the agency's timeline

LENOVO SOLUTION

- Lenovo™ ThinkStation® P500 workstations with NVMe drive technology and Intel® Xeon® processors surpassed the competition with faster, more reliable application performance
- By providing imaging and asset tagging, Lenovo helped the agency speed deployment and keep limited IT staff focused on other more crucial tasks
- The FLEX bay system and easy, tool-free maintenance gave the agency flexibility on future upgrades, extending the useful life of the workstations
