

MimioStudio

Maybe you'd like more interactive teaching tools. But maybe your teachers don't have the time to learn dozens of software programs. And maybe your budget wouldn't allow it, anyway. Not to worry. Now there's a single, easy-to-learn collaborative classroom software solution that can be used with any interactive whiteboards you already have.

"The MimioStudio Collaborate feature makes small-group work even more meaningful when students can share their work in the front of the classroom."

Melissa Haney
