RDH310

POWERED BY **HOWARD INNOVATION**

Reduce Desktop Footprint—Increase Security

Increase your security profile and reduce your desktop footprint at the same time with Howard's RDH310 rackmount computer. Its rackmount chassis makes it ideal for installation in a security closet or network rack, which not only frees up workspace but also safeguards your hardware by assuring consistent power, protecting against dust, and facilitating proper air flow; so your computer runs safely and efficiently. The RDH310 is built for high performance, with 8th Generation Intel® Core™ processors and must-have features, such as DDR4 memory, Intel Turbo Boost 2.0, and Intel® Hyper-Threading (HT) Technology to speed up workflows and improve multitasking. You'll get more done in less time! The RDH310 delivers up to two and a half times better performance than previous models and supports Intel's integrated connectivity (CNVi), which allows for a much faster wireless connection. For price and performance, Howard's RDH310 is a clear winner!
