# Designed and Engineered to Simplify Telepresence

Expand your telehealth presence in a flash with the HI-View and HI-Rise cart families. These carts provide clinicians a safe way to interact with patients via video chat and can be equipped with a speakerphone mount for hands-free communication. In addition to being sturdy and lightweight, which makes it highly maneuverable, these carts are also available with fixed height or height adjustable, making it easy for people of varying heights to use it comfortably if that fits your workflow. The tablet mount also allows for a wide variety of tablets to best fit your facility's needs. Enable your healthcare workers to safely connect to their patients remotely—no travel time and costs associated.

4" premium dual-wheel casters allow for easy deployment to patient rooms, clinical triage, office location, and more

Available with height-adjustable options for easier viewing angles, whether seated, in bed, or standing

Adjustable design supports most tablets with 8" to 13" screens

Reduce physical contact to limit the spread of infection

Wide range of device and video conferencing software choices to fit your facility's needs

Compatible with many cart accessories
