The **Howard** Advantage

The industry-leading HI-Care E, our most popular cart, offers full, class-exclusive features to automate, update, and communicate based upon the individual needs of your facility.

The HI-Care E cart's negative/positive-tilt keyboard tray

The HI-Care E cart's adjustable, ergonomic handles

The minimal distance between the worksurface and patient bins means less bending for the user

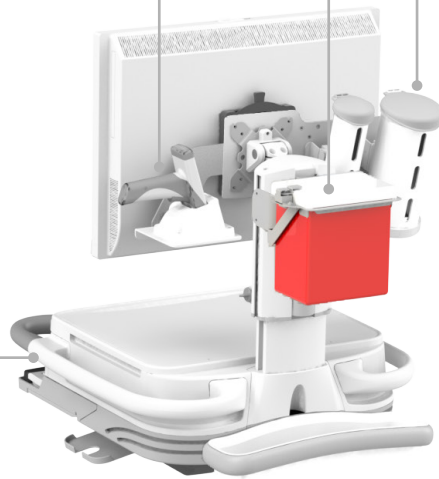

Howard's patented Steer-Assist Technology allows end users to maneuver carts much more easily as they navigate around corners, through doorways, and in tight spaces

Customizable Accessory Combinations

universal wireless or tethered
barcode scanner bracket

sharps container and bracket

cup dispensers and bracket

one-touch independent height
adjustment for monitor

ergonomic push handles

auto-leveling keyboard with
negative/positive tilt

270 degree wrap-
around handle

one-touch height adjustment for
worksurface

on-demand steer-assist technology

rubberized footrests

rear handle and basket

open architecture at wheel base

Ergonomic Features

Point-of-Care Solutions

Our solutions are designed with the healthcare setting clearly in mind; with a range of features expressly integrated to ease workloads for nurses and other healthcare professionals, as well as to enhance patient care. Howard Medical's family of carts can be used in a variety of applications that include Charting and EMR, Medication Dispensing, and Nursing Education. Our carts are engineered to meet the exacting requirements of the healthcare industry, and built tough enough to withstand daily use in the most demanding environments.

Howard Medical Cassette Exchange Cart Fill: Hybrid Patient Medication Delivery System

1. Pharmacy

2. Patient medications are placed in individual bins with easy-swap cassettes

3. Cassettes are placed in a Transfer Cart and delivered to floor

5. Medications are dispensed to patient from the cart

4. Cassettes are placed in cart

Howard's Advanced Medication Delivery System

Maximize efficiency and ease workflows by utilizing Howard's unique, point-of-care interchangeable cassette system. This easy-swap exchange system makes it possible for medications to be cassette-transferred securely from pharmacy to patient bedside. Howard systems adapt easily to centralized or decentralized models. Streamline the medication dispensing process, increase accuracy, and help minimize potential medication errors.

HI-Care

The HI-Care is an industry-recognized ergonomic mobile solution, with a flexible design tailored to fit multiple and varying workflows. Our most popular cart offers full class-exclusive features to automate, update, and communicate based upon the individual needs of your facility.

- Central control panel with convenient electronic worksurface and monitor height adjustment, lighting controls and storage management
- Flexible storage configurations with add on capability can be customized to fit multiple workflows
- Universal accessory mounting locations on rear of cart and on monitor mount (choose from 12+ optional accessories)

HI-Core
all-in-one cart

HI-Core

The HI-Core cart line is the innovative blending of convenience, customization, quality engineering, and affordability. Lightweight and easy to maneuver, this ergonomically designed line of carts sets the standard for mobility in point-of-care. All HI-Core carts can be easily configured as powered or non-powered.

- Two-tiers of configurable storage options: (2) single-tier drawers, (1) 2-tier drawer, or (1) single-tier and (1) hangdown drawer
- Storage security options include: non-locking, keyed lock, or electronic keypad lock
- Gas assist worksurface height adjustment (32.9" sitting to 44.9" standing)

HI-Paradigm E
3-tier

HI-Paradigm E
6-tier

HI-Paradigm

The HI-Paradigm cart line provides the ultimate in medicine dispensing organization. The configurable drawers can be tailored to your distribution needs and help keep employees on track. The electronic locking keypad, coupled with our Med Manager software, provides our carts with premier security capabilities.

- Advanced electronics are an option on the HI Paradigm with features such as: drawer sensing, automatic drawer lighting, and drawer ajar alarm
- The easy-swap cassettes allow the HI-Paradigm cassettes to be easily swapped between the cart to a Transfer cart or Med-Hub
- Flexible storage configurations with add on capability can be customized to fit multiple workflows (narcotics locking options available)

HI-Pinnacle E
model 15

HI-Pinnacle E
model 45

HI-Pinnacle

The HI-Pinnacle E cart line further streamlines your medication management. From the innovation of its interchangeable cassette system to the superior security of its advanced locking mechanism, the HI-Pinnacle E incorporates a range of features expressly integrated to boost staff efficiency and ease workflows.

- Advanced electronics are an option on the HI-Pinnacle E with features such as: drawer sensing, automatic drawer lighting, and drawer ajar alarm
- The easy-swap cassettes allow the HI-Pinnacle E cassettes to be easily swapped between the cart to a Transfer cart or Med-Hub
- Flexible storage configurations with add on capability can be customized to fit multiple workflows (narcotics locking options available)

Transfer Cart

Transfer Cart

Maximize efficiency and ease workflows by teaming Howard Medical Transfer carts with POC carts. Utilizing our interchangeable cassette system, Transfer carts make it possible for a full day's medications to be cassette-transferred securely from the pharmacy and stored in Med Hub units on patient floors. When it's time for a med pass, nurses can transfer the medication-filled cassettes directly from the Med Hub to their POC carts for safe delivery to patient rooms.

- Four lockable doors that fold back against cart ends
- Premium high security key locks with interchangeable cassettes with available master keying
- 6" easy glide casters with one braking caster and one steering caster on each end
- Push handles integrated into both ends of the transfer cart
- Four cassette compartments, each capable of holding (12) single-tier cassettes
- Capacity: 40-tiers

Med-Hub

Med-Hub

The Med Hub, with its interchangeable drawer system and E-Comm Centralized Control Panel, is designed to provide secure, decentralized storage for nursing stations or small wards. When it's time for a Med pass, all your meds are there—no need for extra trips to the pharmacy. Medication-filled bins can be switched easily from the Med Hub to POC carts and transported to patient rooms. Simple.

- Membrane Keypad for Drawer Access
- Medical-Grade (All Touch Surfaces)
- Electronic Locking System
- Computer USB Interface Provided
- 10 Tiers of Storage (Combination of cassettes and Storage Drawers)
- Narcotic Locking (Drawers Available)
- Auto Re-lock (Adjustable Timer)
- Local Management Software
- Remote Management Software

Med-Serve Cabinet

Med-Serve Cabinet

Medserve is a secure, wall-mounted medication management system that enhances nurse efficiency and patient care. It electronically secures and organizes medications near patient care areas, improving medication workflow and security.

- Prevent drug diversion
- Reduce time retrieving medications
- Track access by user and bin
- Simplify reconciliation
- Solves challenging compliance issues
- Fast return on investment
- Takes up less space in patient rooms, maximizing the use of space and increasing staff efficiency

Falcon
Arm

Wall-Mounted Arms

Howard Medical wall-mounted arms include solutions for both patient rooms and high traffic areas, helping clinicians improve work flows and provide better patient care. The height adjustable and side-to-side panning capability of both the keyboard and display enables clinicians to interact with their patients while entering data.

- Articulating arms allow caregivers to chart while maintaining eye contact with patients
- Medical-grade surfaces
- Independent mounting allows for customized distancing between keyboard and monitor
- Cable management provided for both monitor and keyboard
- Ergonomically friendly negative tilt keyboard adjustment with sliding mouse tray

USFF

Auxiliary Storage
Cabinet

All-In-One
Cabinet

Wall-Mounted Cabinets

Strategically placed wall-mounted computing stations increase efficiency by providing more access points to ensure data is readily available, and convenient storage features add to their usefulness by allowing quick access to stored equipment and supplies.

- Computing stations meet or exceed all applicable health code and regulations such as: HIPAA, Joint Commission (JCAHO) and the ADA while also adhering to standard life safety and OSHPD requirements
- Large, retractable work surface with custom configurations available
- Multiple locking system options, including keyed and keypad entry
- Easily accommodates a wide range of PCs and additional equipment in other compartments

Kiosk Solutions

Kiosks

Our kiosk solutions help patients to have the best experience possible within your facility. Surveys indicate that patients are more likely to choose a healthcare provider who allows them to manage their health and medical care using convenient healthcare portals. Our easy-to-use, self-service kiosks are compatible with Epic and a perfect fit for healthcare facilities. Healthcare uses include registration, check-in, and billing; wayfinding, virtual concierge, internal HR applications, and many more

- Patient check-in
- Wayfinding
- Information access
- Vendor check-in
- Patient bill-pay
- Customization

Telehealth Solutions

Howard's virtual care and telehealth offerings range from easy-to-use kits to full all-in-one solutions for telehealth related communications. Our product offering has combined high-level industry needs with the precision engineering you will come to expect from Howard. Our uniquely designed technology is functional and practical for all sizes of telemedicine projects.

- Our TeleCare Cart combines allocated device storage, multiple camera options, and a versatile external I/O panel
- The TeleCore Cart is the optimal telecommunication solution, a unique blend of convenience, customization, quality engineering, and affordability
- Our RTK offers a way to expand your telemedicine program beyond the walls of your facility
- The Soft Telemedicine Kits are designed for mobile telehealth applications to improve the level of care

Warranty

Howard Medical's commitment to providing unmatched customer service and support continues long after a sale is final. Our technology staff provides 24/7 technical support (excluding US holidays) for as long as you own your Howard product. Our friendly, US-based team of experts will answer your questions about the product, hardware setup, or installation, and with telephone hold times of typically less than a minute.

About Us

Experience the Howard Advantage

The Howard Advantage starts with being an actual manufacturer by trade and not simply an integrator of parts. Howard Industries, our parent company, was founded in 1968 by Billy Howard, Sr. Over the past four decades, this company has grown to become the nation's leading manufacturer of distribution transformers, with nearly nine-million transformers in service throughout the United States and abroad.

Howard's firmly established position as a leader of industry served as the springboard for a new division, which began production of computer technology in 1998, Howard Technology Solutions (HTS).

Howard (HTS) designs and manufactures its own enterprise mobility solutions. In addition, strategic partnerships with other industry leaders enable us to offer a rich portfolio of over 300,000 name brand products. We have dedicated representatives for each of the products we have listed, who are equipped with the knowledge and expertise to answer questions and assist in the buying process. From purchase and delivery to installation, management, and servicing by industry-certified technicians, Howard is with you every step of the way.

We provide government agencies and schools with innovative and affordable technology. We help medical facilities maximize productivity and improve patient care, and we support first-responders in emergency situations by facilitating communication among diverse systems and organizations. From single components for individual consumers to large-scale solutions for commercial businesses, we supply superior technology.
