

Saving on Healthcare Lighting

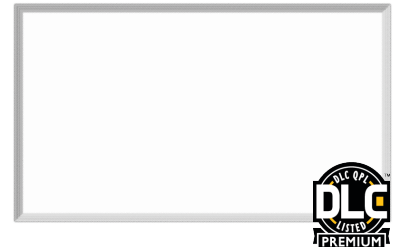

Easily replace traditional fluorescent with **high quality LED** lighting solutions

Upgraded Lighting for Healthcare Facilities

Easily replacing existing fluorescent fixtures with LED is a quick and simple way to reduce power consumption costs while also providing high quality lighting. Lighting a medical facility ultimately represent 30% of total electrical consumption in healthcare buildings.

LED CENTER BASKET

LED FLAT PANEL

Product Applications

Center baskets, flat panels and retrofit kits are simple to install fixtures that can easily replace traditional fluorescent lighting. LED lamps are also a sound option for quickly providing a low power and high quality LED option for existing fixtures.
