

## Computing Solutions

# Computing Solutions

As a leading manufacturer and reseller of computing solutions, Howard is committed to creating, providing, and supporting superior products. In addition to our own line of custom desktops, notebooks, servers, kiosks, and enterprise mobility solutions, we've partnered with other industry leaders to offer a rich portfolio of over 300,000 name-brand products. Howard is committed to providing cutting-edge technology—and making it affordable.

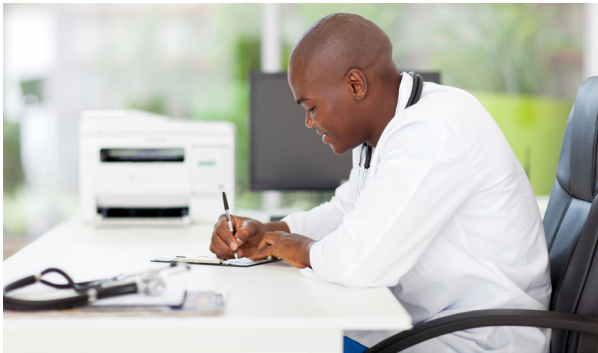

### **Desktops**

We offer complete all-in-one computers and traditional tower desktops as well as micro form factors. Howard offers many computing solutions for a variety of needs.

### **Printers (2D and 3D)**

Linking physical documents to your digital environment is easy, whether you use large multifunction printers (MFPs) or smaller portable printers. Exploring the possibilities of a 3D printer? Howard can help.

### **Notebooks & Tablets**

When it comes to point-of-care work processes, industry-specific notebook and tablet computers provide clinicians with an unprecedented level of mobility and accessibility.

### **Antivirus**

Traditional, full-scale, antivirus tools give you the ability to search for, detect, and remove software viruses and other malicious programs like worms, Trojan horses, and adware.

### **Accessories**

We have mice, keyboards, rugged computer cases, and laptop sleeves. Deter theft with Kensington locks, and ensure usability with custom cables, adapters, and other accessories.

### **Management Solutions**

Use proven management solutions to track and manage asset status, control access to data, and ensure optimum performance for computers handling critical patient information.

### **Virtual Reality**

By simulating real-life patient situations, Virtual reality simulation (vSIM) enables healthcare professionals to train for emergencies in a risk-free environment.
