

Audiovisual Solutions

Audiovisual Solutions

Audiovisual solutions are changing the face of healthcare, especially in such key areas as medical education, telemedicine, and healthcare administration. This technology enables interactive teaching for more effective training, extends the reach of quality healthcare by making remote consultation and diagnosis possible, and facilitates collaboration between doctors and hospitals. From operating suites and surgical centers to conference rooms and waiting areas, Howard has what you need to create specialized communications systems for your facility.

Interactive Solutions

Meet your management and training objectives with interactive solutions from Howard. Interactive technologies enable global flows of information that promote active learning, facilitate effective collaboration, and improve data-driven decision making.

Specialty Medical Displays

Howard offers a wide range of medical display systems including diagnostic, surgical, and clinical specialty displays optimized for viewing image-enabled EMR in grayscale and full color.

Audio Solutions

Improve instructional quality with a solid audio system from Howard—state-of-the-art technology that clarifies and distributes sound evenly.

Video Cameras

IP-based video surveillance has become the security solution of choice. We offer everything from network cameras and video management software to complete systems—all easy to install and simple to operate.

Video Accessories

Check out Howard's selection of TVs, LCD monitors, projectors and screens. We've also got switches, converters, and extenders; control systems, amplifiers, mounting solutions and more.

Mixers & Microphones

Whether you are creating voice-enabled patient rooms or just want to make dictation easier for transcribers, high-quality microphones and mixers are key.

Broadcasting

Deliver affordable live broadcasts and webcasts from any location, in any kind of weather, with ultra-reliable broadcast video equipment that features long recording times, high data transfer rates, and file-based workflows.

Cables

Howard has high quality, low-voltage cabling and connectivity solutions—HDMI, DVI, VGA, USB, IDE, SATA, eSATA, Firewire and Ethernet cables, adapters, and extenders—all at affordable prices.

Mounts

Boost the visual impact of your presentations with custom mounting solutions! Choose from a wide variety of innovative mounts for TVs, LCD monitors, and projectors—stable, durable, and easy to install.

Furniture

Wall-mounted computer cabinets provide the optimal solution for bedside charting and education in patient rooms, without taking up valuable workspace.

Projectors

Make your training sessions more effective and enhance continuing education programs with easy-to-use, full-featured projectors.

Speakers & Amps

Great sound doesn't have to be expensive; it just has to be great—clear, even distribution of sound. Howard offers high performance amps and speakers in a wide range of single and multi-channel configurations for small to large AV installations.

Intercoms, Bells, & Paging Systems

From employee and patient-only notifications to facility-wide alerts and announcements, clearly audible, reliable communication is critical to situational outcomes and can even save lives.

Projector Screens

Ensure optimal viewing for all your productions by choosing the right projection screen for your space. Whether it's for a small office or a large facility, Howard offers a comprehensive line of projection screens that includes electric, manual or rear projection, and portable options.

Interactive Touchscreen LCDs

Interactive displays, such as the touchscreen LCD displays used in patient rooms and digital signage used to deliver real-time information to the general public, provide quick and easy access to important information

Video Conferencing

Reduce healthcare costs, increase patient reach, and provide timely access to specialized care with HD videoconferencing.
