

Mobility, Security, and Convenience.

Designed for wireless integration, the MobileLoc32 provides the recharging power, mobility, and security you need in a wireless notebook cart. This dynamic cart can hold up to 4 modules that will house and charge 8 notebooks each so as your program grows, your cart can grow with it. And all modules are mounted on pull-out slides to provide convenience and easy access.

Experience the Howard advantage.

Sturdy handles allow easy mobility and control.

Side-mounted cycle charger featuring a timer for variable charging.

Heavy-duty balloon wheels roll easily and quietly. Retractable 20' cord stows away easily.

Features and Benefits

- Scratch and impact resistant 1-1/16" high pressure laminate worksurface
- Low-profile, flush-cup, two-point locking doors on the front and back provide security and easy-access to inside of the unit
- Four 5" heavy-duty swivel locking balloon wheels roll easily and quietly on uneven surfaces
- One standard set of handles (made of recycled plastic) allow easy mobility and control
- Side-mounted cycle charger features a timer for variable charging
- Cart can hold up to four pull-out modules
- Capable of storing and charging 32 notebooks with four, 8-bay notebook recharging modules
- Slotted doors and perforated steel side panels provide ventilation to help keep equipment cool
- Worksurface cable grommet, velcro tie downs, and wire management drawer located under each laptop module keep wires and cords organized
- Guaranteed to be free of all defects in materials and workmanship with a 5-year warranty

MobileLoc32 Notebook Storage & Recharging Cart

Standard MobileLoc32 Features

Heavy-duty handle set

16-gauge steel door

Two-point lock

5" balloon wheels

Formed 16-gauge steel support posts

Cycle charger*

16-gauge ventilated steel sides

20' retractable cord reel
