

Economy and performance

From its space-saving, ultra-small footprint and energy-efficient design to its low price-point, Howard's new M10B is the epitome of economy. Powered by Intel's dual-core Atom™ D525 processor with built-in graphics and DDR3, the M10B delivers optimal performance at the lowest power, which translates into significant energy savings. A small form factor makes it ideal for use anywhere space is at a premium. Low-cost, low power consumption, and minimal space requirements—Howard's M10B is economy at work!

Howard Technology Solutions recommends genuine Microsoft® Windows® 7 Professional.

PSU	65W external power adapter

Q: What about processor options?

A: There are no processor options for the M10B because the Intel® Atom™ processor is integrated onto the motherboard.

Q: What is the Intel® GMA 3150?

A: The GMA 3150 is one of Intel's integrated graphics chipsets that features 3D enhancements, enabling greater flexibility, scalability, and improved realism, with support for Microsoft® DirectX 9.0.

Q: Where would I use the Howard M10B?

A: The M10B is designed to be used as a low cost, low power, space-saving desktop.

Q: Whom should I contact for support?

A: Call Howard Technology Solutions for world-class support and service, if there are any questions about this desktop. Customer support is available—
