Business-class power and security

Get business-class power, security, and durability in Howard's new, mid-size business notebook, the W350DV. Powerful Intel® 6th Generation processors give the W350DV an extra-quick start and deliver up to two and a half times the performance of previous generation models. It features vPro and Active Management technologies, and has support for Intel's Small Business Advantage (Intel® SBA) to help manage security and productivity issues. In addition, the W350DV utilizes Intel's work-oriented Q170 chipset to simplify lifecycle management and minimize hardware support costs, significantly lowering total cost of ownership. Whether you work in an office, on-the-road, or at home, Howard's W350DV is a boon for business—powerful, reliable, and affordable.
Howard Technology Solutions recommends genuine Microsoft® Windows® 10
