

# MimioView 340H document camera

High-definition pictures and live video engages students and creates dynamic lessons. Simply take our document camera out of the box, attach a single cord, and it's ready to go.

Take all the wonder of interactive lessons and activities, and launch it even further by adding high-definition (HD) pictures or live HD video with the MimioView™ document camera. Detailed images of the intricacies of a flower or math manipulatives are all easily seen by the entire class on the front-of-the-room display. Lessons and learning are brought to life.

The MimioView 340H document camera automatically integrates with MimioStudio™ software, simplifying adding HD pictures and live HD video to lessons. Teachers can display, freeze, annotate, and save all visual content.

- Plug into a single USB computer port for both power and data.
- Autofocus by pushing a single button.
- The convenience of two adjustable light sources.
- Capture both dimensional objects and flat documents in exceptional detail with high-definition 1920x1080 imaging.
- Save work by easily annotating images and creating files to use over and over.

“The MimioView is excellent for transforming any object—flat or 3D—into interactive electronic content that I can bring right into my lesson.”

James Taschek, Middle School Teacher  
Telluride, CO

## MimioStudio software—so easy to use and engaging, your teachers will use it every day.

The MimioView document camera includes the dynamic MimioStudio classroom software. It connects the Boxlight products, so using other tools—from the document camera to the pen tablet—is quick and easy. MimioStudio software allows educators to create interactive lessons and collaborative activities, and perform real-time formative assessment. **Take learning even further with our MimioMobile™ app, which brings group learning and collaboration to almost any device.**
