About FileWave

Since 1992, FileWave has provided business, education, and government customers with industry-leading systems and mobile device management software to effectively, and efficiently, secure and manage devices, applications, and content from one easy-to-use console. With offices throughout the USA and Europe, FileWave provides worldwide support, when you need it.

Key Components

☑ **Multi-Platform Support**
   OS X, iOS, Windows & Android

☑ **Multi-Platform Imaging**
   Direct, network & layered

☑ **Patented File-Level Deployment**
   Deploy anything, anytime, at any level

☑ **Integrated Inventory**
   Know what you have & what it's doing

☑ **True Self-Healing Technology**
   Auto-fix broken installations

☑ **Content Management**
   License, app & usage reporting

☑ **End-User Self-Service Kiosk**
   Content on-demand

☑ **Device Security**
   Protect data & devices

☑ **Highly Scalable Infrastructure**
   Booster technology reduces network traffic

☑ **System Updates**
   Windows/OS X updates
   3rd party (Java, Flash, MS Office, etc.)
