

## WE'VE GOT SCHOOL SPIRIT ON OVER 700 COLLEGE CAMPUSES.

LEARN HOW YOUR SCHOOL CAN **GETCHARGED™**

### How does the Kwikboost Demo Program work?

We'll send you a charging station to use wherever you choose to on campus for 30 days. If our charging station is in high demand, which it almost always is, we will take \$75 off the purchase price when you purchase. If our charging stations are not a big hit? Just return it! Kind of like test-driving the car before purchasing.

### Why does your campus need Kwikboost?

A charged phone on a school campus is just as important as personal space in a dorm room. Students rely on their devices for everything from waking up on time to communicating with their professors and peers. Besides, with over 400+ colleges already signed up, odds are (insert rival school here) already has KwikBoost, and you don't want to lose to them again, right? From university student unions, to libraries, to K-12 teacher's lounges, the addition of KwikBoost phone charging stations on campus provides a convenience factor that is sure to earn you extra credit with your students and faculty.

### How do I get a \$75 discount?

Try a Kwikboost Charging station anywhere on campus:

- Library
- Student Center
- Teacher's Lounge
- Dorm
- Sports Venue
- Academic Building

All that is required for the \$75 discount is to take a selfie with the Kwikboost station. Then, upload the image to this address:
