

Give your TRU TOUCH display a boost

Explore a world of options on the big display. Connect X10D to your **TRU TOUCH** and download your favorite apps from the built-in Google Play Store. Use your finger to control the screen, and adjust the floating control pad that stays in view for easy access.

Customize your display for your needs.

Remove delays or confusion of trying to find the right app you need for a lesson. Completely customize the user interface home screen to make it easier than ever to quickly access your favorite and most important apps. Up to 11 slots are available to place and arrange the apps that you use during the day.

Access to over a million apps

Use the Google Play Store button to browse and install any apps you need to your X10D.

Add educational game apps, video players such as YouTube, and video conferencing apps like Skype to contact classrooms around the world.

With easy access to over a million apps, X10D adds more capabilities to your display by giving you tools with no limits.

Complete Google Apps for Education

Bring the power of Google right into your classroom with the expansive, limitless Google Play Store. Download the full suite of Google Apps for Education:

- Collaborate with Google Drive and Docs and Sheets.
- Give presentations using Slides and send emails through Gmail.
- Save all of your files directly to Google Drive for easy access off of your TRUTOUCH display.
- Write and keep track of your notes, make checklists using Keep.
