

HOWARDedu CORPORATE OVERVIEW for New Customers

HOWARDedu is a division of Howard Industries, which is headquartered in Ellisville, MS and employs more than 3,300 people in locations across the United States. Howard Industries has been in business since 1968 and began offering technology solutions in 1998, a venture that quickly spiraled into a viable business that today includes a successful line of Howard-manufactured servers, desktops, and notebooks, as well as gaming stations, kiosks, and presentation carts.

Howard further accelerated its growth by partnering with other industry leaders, such as Adobe, Aruba, Asus, Audio Enhancement, Barracuda, and Crestron; Epson, Extron, Extreme Networks, HP, Lenovo, Lumens, and Newline, securing its position as a leader in Education technology.

While Howard clients range from state governments and hospitals to the Kennedy Space Center, HOWARDedu focuses solely on the needs of K-12 schools and higher education facilities, supplying them with affordable, advanced technology—everything from distance learning and interactive 21st Century classroom products to network security and storage solutions.

HOWARDedu understands both the requirements and challenges associated with education networks. This insight, coupled with product knowledge, makes HOWARDedu representatives uniquely qualified to assist you in choosing the right technology for your campus. In addition, state purchasing cooperatives and national contracts, such as BuyBoard, NASPO, NCPA, TIPS/TAPS & ERATE, enable us to give you the best pricing available.
