

Telehealth Solutions Education

Telehealth Carts

Telecare

Our Telecare Cart combines allocated device storage, multiple camera options, and a versatile external I/O panel. Telecare, our flagship model, supports a unique array of telemedicine applications.

Telecore

Our Telecore Cart is the optimal telecommunication solution, a unique blend of convenience, customization, quality engineering, and affordability. This model is ideally suited to meet facility telemedicine requirements.

Kubi Swift

Kubi Swift is a significant part of Howard's virtual care product line. Our non-powered Kubi Swift cart combines two lightweight devices into a mobile teleconsult platform. The Kubi can be controlled remotely when combined with a software application.

Wall-Mounts

Wall-Mounts

Perfectly designed for form and function, wall-mounted computer cabinets in patient rooms are ideal for utilizing telehealth solutions. They contribute to a more secure environment in which patients can interact with off-site providers and discuss sensitive information. Additionally, wall-mounted computer cabinets provide a suitable way for patients to view educational content privately.

Kiosks

Telehealth Kiosks

Howard's multipurpose Telemedicine Kiosks are ideal in standalone or physician assisted tele-visits. We offer unique mounting options to support accessories in order to perform the highest level of clinical care.

Telemedicine Kits

Rugged Telemedicine Kits

The Rugged telemedicine kit (RTK) is an essential element in providing telemedicine services. This versatile kit can accommodate the equipment necessary to service patients anywhere you intend to go. Our RTK offers a way to expand your telemedicine program beyond the walls of your facility.

Soft Telemedicine Kits

Our Soft Telemedicine Kits are designed for mobile telehealth applications to improve the level of care. Our light weight, USB-powered Telehealth Backpack provides your facility with a simple and effective approach, allowing you to configure your telemedicine kit for in home care or physician consultation.
