ACCESS CONTROL is the easiest, most convenient way to mitigate security risks, because it allows you to control, track, and manage access to any rooms, sections, or facilities for improved employee and visitor management. See how your institution can benefit from an easy-to-install access control system.

Access Control

BENEFITS

- Enable multi-location access
- Identify and log user activity
- Save energy and money
- Eliminate unauthorized entry
- Simplify employee turnover
- Key cards

MITIGATE SECURITY RISKS

Using simple-to-program key cards eliminates the risk associated with using actual keys, which are much easier to duplicate.
