

**RISK ASSESSMENT** is critical, because if you don't find the security vulnerabilities on your system, someone else will! That's why Howard Enterprise recommends conducting both internal and external assessments. These assessments can minimize your risk of becoming a target for potential intruders and different types of malware,

## RISK ASSESSMENT

### PROTECTION FROM

- Spyware
- Keyloggers
- Viruses
- Worms

## NETWORK ASSESSMENT BENEFITS

Be proactive and protect your business by getting to know your network inside and out. Experienced Howard specialists are available to provide you with the help you need to fortify your system.
