Registration Carts

Howard registration carts are a versatile mobile solution capable of being equipped with multiple accessories. Our carts are engineered to meet the exacting requirements of the healthcare industry and built tough enough to withstand daily use in the most demanding environments.

Options:

- Accessories
- POC Technology
- Lockable storage
- Computing device
- Hardware mounts
- On-board power

Mobile Devices & Charging Stations

Mobile computers and tablets provide a highly convenient way for patients to check-in, allowing for a "grab and go" workflow.

Charging stations provide the ideal solution for securely charging mobile devices and providing safe storage of personal items in public places, such as in lobbies, cafeterias, cafés, nurses' stations, waiting areas, and patient care areas.

Charging Station Benefits:

- Secure charging
- 8-16 Bay capacity
- Wired charging

Mobile Device Benefits:

- Rugged design
- Desk/wall-mountable
- Easy mobility

Tabletop Kiosk

A-Series Kiosks

Tabletop kiosks are ideal for use in a variety of medical applications. They help eliminate long waits and make ordering, updating information, and payment processes smoother, faster, and more secure, all of which contribute to a more positive customer experience. Table-top kiosks are less expensive than full-size models and much easier to move from one location to another, as needs dictate. Automation is transforming the way we do business. Let Howard show you how.

Options:

- Durable, powder-coated steel enclosure
- Barcode scanner
- Encrypted EMV credit card reader
- Camera (integrated)
- Touchscreen
- Customizable colors & graphics
- Thermal receipt printer (optional on some models)

W-Series Kiosks

The W-Series kiosks are built for indoor use. These self-service kiosk units are most commonly used for check-in and payment processing but can be used in a variety of other ways. W-Series kiosks are equipped with high-quality components, such as a touchscreen monitor as large as 24-inches, to ensure full security and optimal functionality. This standalone multimedia platform includes a built-in PC with a user-friendly interface that allows the system to guide customers easily through automated processes. These kiosks are solidly constructed to withstand round-the-clock usage, maximize uptime, and ensure the high level of performance you depend on. Howard support technicians are available 24/7.

Options:

- Durable, powder-coated steel enclosure
- 19-24" Touch display monitor
- Card reader
- Receipt printer
- Barcode reader
- Integrated 170 degree security camera
- Keyboard with trackball (internally stored)
- Core i5 Howard computing device
- Customizable colors & graphics

Wall Mount

Wall Mounts

Perfectly designed for form and function, wall-mounted computer cabinets and arms are an ideal choice for patient check-in. They contribute to a more secure environment in which patients can interact with off-site providers and discuss sensitive information. Additionally, wall-mounts provide a suitable way for patients to view educational content privately.

Benefits:

- ADA Compliant
- Modular design
- Secure storage
- Customizable design
- 24" Display
- USFF or AIO computing device
