

Reach Your Patients With **Telehealth**

Telehealth Services are quickly moving to the forefront of medical practices. Telehealth allows facilities to maintain social distancing protocols while optimizing efficiency and conserving resources. Howard Medical has a complete line of telehealth solutions, ranging from mobile, lightweight, rapid-response units to more traditional powered workstation units.

Telehealth Use Cases

- Behavioral Health
- Emergency Department
- Neurology, Cardiology
- Skilled Nursing
- Acute Care
- Outpatient Clinics
