Scan Securely with Code

Code's industry-leading data capture solutions now with FIPS 140-2 certification, improve workflow and make processes more efficient. These scanners are both mobile and durable with wireless Bluetooth scanning capability and a housing designed to withstand the harshest chemical cleaning agents. Howard point-of-care carts are designed to integrate seamlessly with the Code family of scanners, allowing healthcare workers to quickly and accurately scan and log medications, lab materials, patient identification, and more.

- Bluetooth Low Energy 5
- Inductive charging eliminates chemical corrosion caused by disinfectants
- PVC-Free CodeShield® plastics stand up to harsh disinfectants
- IP65 rating
