

MED-HUB & Transfer Cart

HOWARD[™]med
TECHNOLOGY SOLUTIONS

MED-HUB and Transfer Cart

Maximize efficiency and ease work flows by teaming Howard Medical TRANSFER CARTS with POC carts. Utilizing our interchangeable cassette system, Transfer carts make it possible for medications to be cassette-transferred securely from the pharmacy and stored in MED-HUB E units on patient floors. When it's time for a med pass, nurses can transfer the medication-filled cassettes directly from the Med Hub to their POC carts for safe delivery to patient rooms.

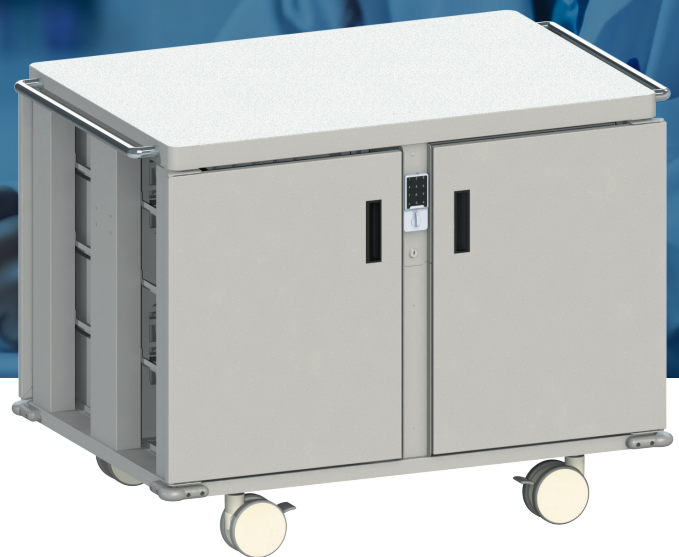

Applications:

- Patient Floor Dispensing
- ICU, ER, Lab Registration and data collection
- Specialty Clinics
- Treatment Areas
- Other Med-Dispense Usages

MED-HUB Features:

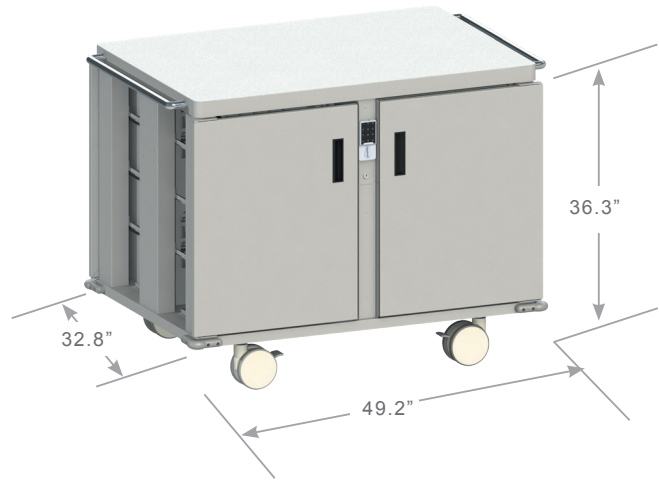

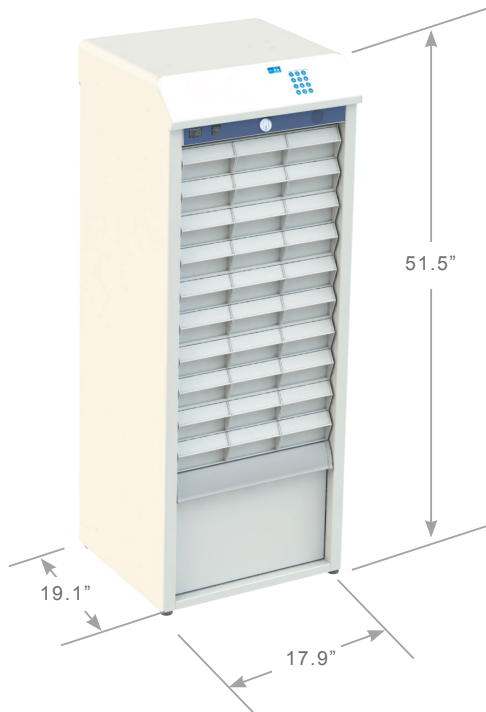

- 10 Tiers of Configurable storage
- Centralized Control Panel
- Auto Locking Safety Feature (Programmable)
- Support Independent Locking for Securing Narcotics
- 12" Tall Pedestal Base with Drawer (non-locking)
- Support 2000 Unique ID Codes (Remote Software)
- Easy Swap Cassettes
- Ships Fully Assembled
- Large Number of Storage Options
- Independent Keyed Bypass for Emergency Access
- Rear Casters for Easier Relocation Lock and Unlock LED Indicator
- USB Connection for PC (Software Required)
- Meets UL Standards

Transfer Cart Features:

- 5" Dual Wheel Casters with One Locking Caster on Each End
- 4 Lockable Doors that Fold Back Against Cart
- Magnetic Catches Hold Doors Closed
- 32 Tier Capacity (8 Tiers per Door and 16 Tiers per Side)
- Push Handles at each End
- Premium Security Keypad Lock (Powered by AAA Batteries)
- Compatible with HI-Paradigm and HI-Pinnacle
- Ships Fully Assembled

	Height	51.5

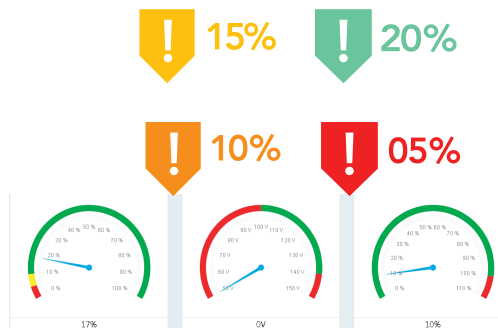

NOTEBOOK CART		
Overall Dimensions (in)	Width	49.2
	Depth	32.8
	Height	36.3

ENTERPRISE MANAGEMENT SOFTWARE

Howard Medical's specialized Software Solutions help you manage your assets more effectively by optimizing cart performance and maximizing availability. With features such as remote monitoring and configuration, as well as data and event logging, you have instant access to vital information about cart power and medication dispense systems.

With Med Manager and Power Manager, you can monitor your entire cart fleet from one location.

With Power Display, the battery gauge is monitored and alarm profiles can be set by you.

- **Med Display:** Our Med Display application allows a user to fully control, update, and administer a cart's entire electronic drawer functions from a local PC.
- **Med Manager:** The Med Manager server application can communicate with the Med Display client, enabling an administrator to manage all carts remotely.
- **Power Display:** The Power Display client application retrieves detailed power and status data from the cart and presents it through an easily accessible web service.
- **Power Manager:** The Power Manager is a web service software that provides fleet-level power monitoring, troubleshooting, and inventory management for Howard medical carts.

Howard Medical Point of Care Carts

Designed and built in Ellisville, Mississippi for over 20 years. Backed by our nationwide network of Howard Certified Technicians as well as 24/7 phone based support.
