

HP Removable Hard Drive Enclosure (2NR12A)

Know that your data is even more secure with the HP Removable Hard Drive Enclosure—a lockable, external carrier installed by a service technician, so you can have a compact, reliable tool that makes one or two internal hard drives externally removable.

Key selling points

Locked and connected

Free up mindshare and time to focus on other important security priorities because you know that your encrypted hard drives are physically secured in an external, lockable box.

- Add an extra layer of protection to the drive carrier and its confidential data with keyed barrel lock access.
- Further protect the contents of the enclosure with the heavy-duty Kensington lock.
- Stay securely connected to select HP devices thanks to a durable, internally installed interface cable.

Durable and compact

A rugged aluminum exterior maximizes the HP Removable Hard Drive Enclosure's durability without compromising its compact design.

- Take advantage of the HP Removable Hard Drive's security features without compromising its design or quality.
- Securely fit one or two encrypted hard drives into the enclosure.
- Minimize disruptions and background noise with the enclosure's quiet, fanless design.

Simple and safe

Enhance your comfort, confidence, and peace-of-mind knowing that your data storage devices are properly protected.

- Simply remove encrypted hard drives for storage in secure areas.
- Rest easy knowing one cable per drive provides data and power with zero reliance on an external power supply.
- Choose whether to have the service technician install the enclosure in a mounted or free-standing position.
