Start Here

IMPORTANT: Before using this product, make sure you read these instructions and the safety instructions in the online User’s Guide.

Note: This printer is designed for use with Epson® cartridges only, not third-party cartridges or ink. For important ink information, visit www.epson.com/epsonink (U.S.) or www.epson.ca/epsonink (Canada) or see your printer box.

Important Safety Instructions: When using telephone equipment, you should always follow basic safety precautions to reduce the risk of fire, electric shock, and personal injury, including the following:

• Do not use the Epson product near water.
• Always keep this guide handy.
• Avoid using a telephone during an electrical storm. There may be a remote risk of electric shock from lightning.
• Do not use a telephone to report a gas leak in the vicinity of the leak.

Caution: To reduce the risk of fire, use only a No. 26 AWG or larger telecommunication line cord.

The illustrations show the EC-4040, but the steps are the same for all models, unless otherwise specified.

1 Unpack

Note: Do not open the ink cartridge packages until you are ready to install the ink. Cartridges are vacuum packed to maintain reliability.

1 Remove all protective materials from the product.

2 Lift up the scanner unit until it locks and remove all protective materials from inside the product.

3 Lower the scanner unit.

2 Turn on and configure

1 Connect the power cord to the back of the product and to an electrical outlet.

Caution: Do not connect to your computer yet.

2 Raise the control panel and turn on the product.

3 Select your language, country, and time.

Note: You can change these settings later using the product’s control panel. For more information, see the online User’s Guide.

4 Remove only the yellow tape from each ink cartridge.

Caution: Do not remove any other labels or seals, or ink will leak. Do not touch the green chip on the cartridge.

5 Insert the cartridge in the holder for each color. Press each cartridge down until it clicks. Make sure all cartridges are pushed down into place.

3 Install ink cartridges

Caution: Keep the ink cartridges out of the reach of children and do not drink the ink.

Note: The included initial cartridges are designed for reliable printer setup and cannot be used as replacement cartridges or resold. After setup, the remaining ink is available for printing.

1 Lift the scanner unit until it locks.

Caution: Do not touch the flat, white cable.

2 Gently shake the ink cartridges.

3 Unpack the ink cartridges.

4 Load paper

1 Make sure the product is done charging the ink, and then close the control panel, lift the output tray, and pull out the paper cassette.

2 Slide the side edge guides all the way out and set the front edge guide to the paper size you are using.

3 Insert paper with the glossy or printable side down.

Note: Make sure the paper is loaded against the front edge guide and not sticking out from the end of the cassette.

6 Lower the scanner unit.

7 If prompted, follow the instructions on the LCD screen. The printer starts charging the ink. Ink charging takes approximately 5 minutes. When you see a completion message on the printer’s LCD screen, charging is complete.

Caution: Don’t turn off the printer or raise the scanner unit while the printer is charging or you’ll waste ink.

Note: Included initial cartridges print about 500 pages black/450 color.
1 Unpack

Note: Do not open the ink cartridge packages until you are ready to install the ink. Cartridges are vacuum packed to maintain reliability.

1 Remove all protective materials from the product.

2 Lift up the scanner unit until it locks and remove all protective materials from inside the product.

Note: Make sure the paper is loaded against the front edge guide and not sticking out from the end of the cassette.
Connect the fax line

1 Connect a phone cord to a telephone wall jack and to the LINE port on your product. See the online User’s Guide for more information.

2 EC-4020/EC-4030: Select Proceed to set up the fax, or select Set Up Later to set it up later.

EC-4040: Select Proceed to set up the fax, or select Close to set it up later.

Install software

Note: An Internet connection is required to obtain the product software.

To print from a ChromoKeys™, go to epson.com/support (U.S.) or www.epson.ca/support (Canada) for instructions.

Firmware Update Notice: Epson periodically provides firmware updates to address issues of security, performance, minor bug fixes and ensure your printer functions as designed. Your printer was designed to work only with genuine Epson ink cartridges, therefore some updates may affect the functionality of third-party ink.

1 Make sure the product is NOT CONNECTED to your computer.

2 Download and run your product’s software package. For the latest software, visit epson.com/support (U.S.) or www.epson.ca/support (Canada) and search for your product.

3 Follow the instructions on the computer screen to run the setup program.

4 When you see the Select Your Connection screen, select one of the following and follow the on-screen instructions:
   - Wireless connection
      In most cases, the software installer automatically sets up a wireless connection. If setup is unsuccessful, you may need to enter your network name (SSID) and password.
   - Direct USB connection
      Make sure you have a USB cable (not included).
   - Wired network connection
      Make sure you have an Ethernet cable (not included).

Mobile printing

Connect wirelessly from your smartphone, tablet, or computer. Print documents and photos from across the room or around the world:

- Print directly from your iOS device. Simply connect your printer and device to the same network and tap the menu icon to select the print option.
- Use Epson Printer Enabler (free from Google Play™) with Android™ devices (v4.4 or later). Then connect your printer and device to the same network and tap the menu icon to print.
- Print remotely with Epson Connect™ and Google Cloud Print™. See the online User’s Guide for instructions or learn more at www.epson.com/connect (U.S.) or www.epson.ca/connect (Canada).

Any problems?

Network setup was unsuccessful.
- Make sure you select the right network name (SSID).
- Restart your router (turn it off and then on), then try to connect to it again.
- The printer can only connect to a network that supports 2.4 GHz connections. If your router offers both 2.4 GHz and 5 GHz connections, make sure 2.4 GHz is enabled.
- If you see a firewall alert message, click Unblock or Allow to let setup continue.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Be sure to enter your password in the correct case.
- Select 3 to enter uppercase letters or select 5 for numbers or symbols.

There are lines or incorrect colors in my printouts.

Run a nozzle check to see if any of the print head nozzles are clogged. Then clean the print head, if necessary. See the online User’s Guide for more information.

The printer’s screen is dark.

Make sure your product is turned on, and press the screen or power button to wake it from sleep mode.

Setup is unable to find my printer after connecting it with a USB cable.

Make sure your product is securely connected as shown:
