

CARES Act Funding Solutions

Utilize CARES Act and CRRSA Act Funding to Increase Technology Staffing through Howard Technology Solutions

Technology dependency is at an all-time high and keeping up-to-date requires a strong IT staff and a solid IT foundation. Fortunately, current relief efforts, such as the Coronavirus Aid, Relief and Economic Security Act (CARES Act - 2020) and the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA Act -2021), have provided additional funding to support remote access and deliver adequate technology staffing.

For EDU, this relief package includes:

- o \$54.3 billion for K-12 schools, largely delivered through Title I funding. That's about four times what schools received in the CARES Act approved in March.
- o \$22.7 billion for higher education with \$1.7 billion set aside for minority-serving institutions and close to \$1 billion for for-profit colleges
- o \$4 billion for governors to spend at their discretion, with \$2.7 billion of that for private schools.

Computer Technician

Allow us to help maintain your computer equipment and provide support to individuals within your organization who need technological assistance.

Network Administrator

HowardEDU can assist you in maintaining, installing and configuring computer networks and systems by adding a seasoned network administrator to your team.

Google Admin Support Specialist

HTS can help manage Google workspace within your institution. Add users and manage devices easily. Configure security and settings to safeguard your data, so that your information remains secure.

Cyber Security Specialist

Strengthening your network security can be a simple matter of looking at your system with a fresh set of eyes to find vulnerabilities. Howard can help with security processes, as well as the training necessary to maintain compliance.

Project Manager

Planning and oversight are essential to the success of any technology investment. The Howard staff can provide extra on-site hands to keep your projects moving, without cutting into your staff's duties.

Technology Integration Coach

Expand strategies by allowing Howard to provide a certificated teacher who provides staff development and coaching on integrating technology into instruction.

Cabling & Installation Technician

Despite the arrival of wireless technology, cables are not going away anytime soon! Howard can help your IT team with installing, maintaining, troubleshooting and repairing voice and data cables.

Programmer

Howard provides the programming expertise to execute code or troubleshoot and fix bugs in existing code.
