

UPGRADE YOUR FACILITY

HI-CARE PRO

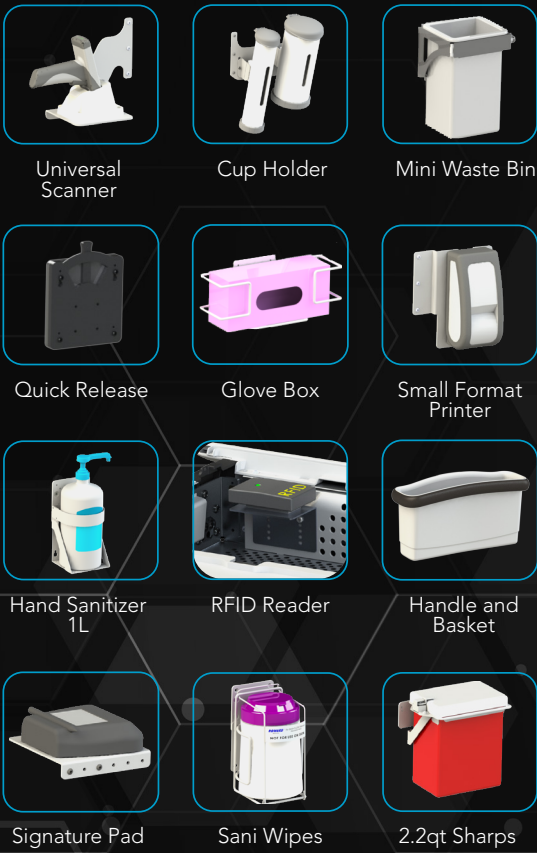

The next generation of Howard's Point-of-Care cart is here. Building on over 20 years of real world experience across our entire line of carts, our innovative engineering team has designed a new cart packed with new features. With a larger work surface, more accessory attachment mounts, and a completely redesigned capacitive touch control panel, our newest cart is even easier to use and maintain, allowing facilities and clinicians to focus on what matters most, patient care.

Cart Features Include:
