

D5 Kiosk

Howard D-Series D5

The kiosk industry is growing rapidly and inevitably making their way into more and more industries. When it comes to a customer's experience, hospitality is top of mind along with improving other ways to make your business stand out. Howard would like to introduce the D5 kiosk to provide your entity with an easy-to-use interactive tool for the user. Information kiosks are a simple way to engage with your customer, entice them to use your services, and easily increase brand awareness. Provide your customers with a gratifying experience that will be sure to bring them back.

Captivate and guide your customers with the easy-to-use Howard D5 Info Kiosk
