

# Pick a pint-sized PC that's power-packed and priced right!

Looking for a small, space-saving desktop computer with all the power and performance of a much larger system? Well, take a look at Howard's new H11 Mini. It's a desktop that's built for high-demand computing, but small enough to hold in one hand, so you get all the power without the tower! In addition to 6<sup>th</sup> Generation Intel® Core™ processors, it's packed with high-performance features, such as DDR4 memory, integrated graphics, USB 3.1, and wireless network connectivity. The H11 Mini delivers up to two and a half times better performance than previous models, with triple the battery power, near silent operation, and low power consumption. It completes in both price and performance, and it's ready to use right out of the box! Whether you're trying to save space at home, fit more computers into your office or squeeze a media server into your entertainment center, Howard's H11 Mini is the deal!

Howard Technology Solutions recommends genuine Microsoft® Windows® 10 Professional.

## Q: What is the benefit of ASUS EZ Flash 3?

A: ASUS EZ Flash 3 allows you to download and update to the latest BIOS through the Internet without having to use a bootable floppy disk or an OS-based utility.

## Q: What is SSD?

A: A solid-state drive (SSD) (also known as a solid-state disk or electronic disk, though it contains no actual "disk" of any kind or motors to "drive" the disks) is a data storage device using integrated circuit assemblies as memory to store data persistently.

## Q: Whom should I contact for support?
