

H810LPKB

POWERED BY HOWARD INNOVATION

Full Power in a space-saving chassis

From taking care of business to watching movies and playing games online, Howard's H810LPKB desktop computer is this year's choice for just the right mix of high performance and real economy—powerful enough to handle basic, everyday computing tasks and priced low enough to fit almost any budget. This low profile system is powered by your choice of the latest Intel® processors to deliver strong, reliable performance with the lowest power consumption possible. The H810LPKB offers high-speed connectivity and features high-definition audio for a totally immersive experience; up to 128GB of DDR5, comprehensive cooling controls, and plenty of ports for connecting peripherals. It combines cutting-edge technology with proven durability—full power in a small, space-saving chassis, so it takes up less room than its full-size counterparts. For work, home, or play, Howard's H810LPKB desktop computer does what you need it to do—without breaking the bank
