

Hospitality Kiosks

Hospitality Kiosk Solutions

Hospitality Kiosks can be commonly found in establishments such as hotels, convention centers, resorts and restaurants. These kiosks are designed to empower guests to access needed information on their own schedule, but surprisingly, they can also be a good source of revenue for their owners. There are many benefits that come with having a hospitality kiosk in your establishment.

The model may be configured to promote additional services, specials, and websites.

Helps to empower users and allows access to needed information on their own schedule
