

SANITIZATION SERVICES

for Buildings

HOWARD biz/gov

We're here to help you keep your employees safe with experienced staff and professional processes that ensure highest industry standards are exceeded.

EXCEED STANDARDS

- Each surface of every facility will be sanitized following guidelines recommended by the CDC and WHO while using EPA approved green products
- Utilize experts who provide sanitization to hospitals and hospitality that meets and exceeds industry standards to ensure the health and safety of your employees
- All team members are Clean Check Certified

HEALTH AND SAFETY

- The top priority of your district is the health and safety of staff and customers
- Sanitize and deep clean all buildings and resources
- Every building is trafficked by countless staff on a frequent basis. Entranceways, high-touch surfaces, cubicles and busy conference rooms are vulnerable the spread of illness.

EXPERT WORKFLOW FOR BUILDING SANITIZATION

- Establish a benchmark for cleanliness and sanitization of your buildings
- Pre-cleaning of all soiled surfaces with a thorough application of disinfectant
- Top-down, left-to-right pattern, or right-to-left pattern to ensure complete coverage
- Disinfectant applied and allowed to remain on surface for designated dwell time
- Depending on product used, wipe, rinse, or air dry surfaces after allowing for proper contact time
- Extra attention paid to high-touch surfaces, and frequently inspect your work to assure all facilities are safe and clean
- Thoroughly wash hands

When it comes to your company, we know safety and cleanliness are of the utmost importance.
