

Ensure student success, no matter where they are, with a Kajeet SmartSpot.

Kajeet SmartSpot is a portable, filtered Wi-Fi hotspot to connect students anywhere, any time. You choose the Education Broadband™ data plan that is right for you. Each Education Broadband plan comes with the Kajeet industry-leading, K-12 specific filters, data controls, reporting, and expert program management.

Administrator Visibility and Control. The Kajeet Sentinel® platform enables administrators to track program success and control website access, data allocations, and more – all from an easy user interface.

CIPA-Compliant Filtering. CIPA-compliant filters provide students with a safe, focused online learning experience.

Lifetime Program Support. A dedicated Kajeet Account Manager will be there every step of the way to ensure your program is a success.

The Kajeet SmartSpot comes with:

- SmartSpot V400
- Kajeet Data Plan – Custom, Unlimited, or Essential
- Kajeet Sentinel – Our Device and Data Management Platform with CIPA-Compliant Filtering
