

RX-H810M

POWERED BY HOWARD INNOVATION

Increase Organization and Reduce Risks

Protect your hardware and your information with a rack-mount desktop computer from Howard. The RX-H810M is a 1U system that fits easily into any network or audiovisual rack, providing proper cooling and more consistent power, ultimately extending equipment life. This configuration increases your physical security profile by helping eliminate unauthorized access and minimizing the risk of accidental damage to computer equipment. The RX-H810M gives you all the essentials—features necessary for mainstream computing, such as Intel® Core™ Ultra Series 2 processors and integrated graphics; up to 128 GB of DDR5 memory, HDMI, high-speed connectivity, and the convenience of four front-access 2.5" drive bays. From increased power efficiency and physical security to reduced operational costs and a lower price point, Howard's RX-H810M is the optimal choice for cost-conscious consumers.
