

Filter

Making web experiences safer for students

Keep students safe on all devices with Securly's signature cloud-based web filter. Get full visibility into online activity, download or email reports, and receive notifications for flagged content with the most sophisticated AI engine in student safety.

Features

Sentiment analysis

Analyze searches and sites visited with the longest-learning AI on the market.

Instant site learning

With our groundbreaking PageScan technology, new sites are categorized, crawled for adult keywords, and scanned for inappropriate images—all in two seconds or less.

Social media and web searches

Filter monitors for signs of bullying, self-harm, and violence across social media and web searches. If a student is suffering or looking at concerning content, you'll know.

Delegated Admins

Delegate by group or organizational unit (OU) so alerts go to staff members closest to the student.

Accessible reporting

Quickly download, schedule, or email reports by OU. You can also generate reports for up to five individual students at once.

Parent access

Give parents control over their child's school device when it goes home so they can view their child's online activity, "pause" the internet, and set their own filtering rules. When it comes to granting control for parent access, you hold the key.

Take-home and guest policies

In addition to creating your own policies, customizable Take-Home and Guest policies come included with Filter to make sure the right devices and people are filtered and protected on and off campus.

Policy map and custom groups

The policy map makes it easy to move Organizational Units (OUs) from one policy to another and create custom groups for a pre-set amount of time to allow or deny access—all without needing Google or Azure directories.

24 for Filter

Don't let critical alerts get buried in your inbox. Our team of highly-trained specialists review flagged activity, 24/7. Pair 24 with Filter, Auditor, and Tipline for the most complete student safety solution on the market.
