AXIS A1001 Network Door Controller
Open and flexible—powered by IP

AXIS A1001 Network Door Controller is an open, non-proprietary platform for access management that meets the requirements for advanced enterprise systems as well as smaller installations. The use of IP, standard IT equipment and the powerful Application Programming Interface (API) makes AXIS A1001 a scalable and future-proof solution that can easily integrate with other systems and components.

AXIS A1001 Network Door Controller comes with a built-in software for basic access management. It is open for third-party software, allowing the unit to be integrated with solutions provided by Axis partners.

The controller is a smart independent device that is installed by each door and data is automatically synchronized between the controllers in the system. It will continue its normal operation and buffer events locally if there is a network failure.

AXIS A1001 supports Power over Ethernet, which eliminates the need for separate power cables to door accessories and other proprietary data cables.

The controller’s color coded connectors and the configuration wizard enables fail-safe and effective installations. The controller supports most reader types and is fitted with configurable input/output ports and controllable power outputs for external equipment such as door locks and positioning sensors.

Adding new controllers to the system is easy. The door controller, as well as all other equipment can be reused if a more advanced solution is requested.

The controller supports advanced security and network management, including fault/tamper detection. The support for Uninterruptible Power Supply (UPS) enables power to be maintained in the event of a power outage and eliminates the need for battery back-up at each door. The plenum-rated controller is designed for wall and ceiling mount.
# Technical Specifications - AXIS A1001 Network Door Controller

<tr>
<td>Readers</td>
<td>Up to 2 readers per controller (Wiegand, RS485 (OSDPI)) with supported card formats. Integration with ASSA ABLOY Aperio® wireless lock technology.</td>
</tr>
</tbody>
</table>
| Doors | 1–2 doors per controller
| **Credentials** | Firmware version 1.50.0 or later: Up to 50 000 with third-party access management software depending on server capacity. Firmware versions earlier than 1.50.0: Up to 15 000 with third-party access management software depending on server capacity |
| **Event history** | 30 000 First In, First Out (FIFO) per controller |
| Access schedules | Unlimited or third-party software dependent |
| **Digital I/O** | Reader I/O: DC output: 2x 12 V DC output max 300 mA; 2x 4 configurable inputs/outputs, [Digital input: 0 to max 40 V DC, Digital output: 0 to max 40 V DC, Open drain, max 100 mA] Reader data: RS485 full duplex, RS485 half duplex, Wiegand Auxiliary: 1x 3.3 V DC output, max 100 mA 2x configurable inputs/outputs, [Digital input: 0 to max 40 V DC, Digital output: 0 to max 40 V DC, Open drain, max 100 mA] Door connectors: 2x 2 input for door monitors and REX (Digital input: 0 to max 40 V DC) Pre-configured for readers and door monitors, Input trigger, Output toggle/pulse |
| **Network Security** | Password protection, IP address filtering, HTTPS® encryption, IEEE 802.1X network access control, Digest authentication, User access log |
| Supported protocols | IPv4, HTTP, HTTP%, TLS%, DoS layer 3 DiffServ, FTP, SMTP, Bonjour, UPnP®, SNMPv1/v2c/v3 (MIB-II), DNS, DynDNS, NTP, RTSP, RTP, TCP, UDP, IGMP, RTCP, ICMP, DHCP, ARP, SOCKS |
| **System integration** | Open API for software integration, including VAPIDX®, specifications at www.axis.com AXIS Video Hosting System (AVHS) with One-Click Connection ONVIF Profile C, specification at www.onvif.org |
| Supported products | AXIS A9188 Network I/O Relay Module, AXIS A4010-E Reader, AXIS A4011-E Reader, AXIS Access Card 1K, Aperio RS485 Communication Hub |
| **Events & alarms** | Tamper detection: Removal of unit cover/tamper front Event log: Configurable by time and topic, Alarm acknowledgement |

## Event actions
- Notification via email, HTTP and TCP, External output port
- Status LED

## Event triggers
- Tamper detection
- Power loss
- Network lost
- Configuration, Door
- Event logger, Hardware, Input signal, Schedule, System, Time

## General
- **Casing** Plastic
- **Software** Configuration and basic access control management through Internet Explorer, Firefox, Chrome, or Safari
- **Supported languages:** English, French, Italian, German and Spanish
- **Memory** 256 MB RAM, 4 Gbit Flash
- **Power** Power in: 10–30 V DC, max 26 W or Power over Ethernet IEEE 802.3af/802.3at Type 1 Class 3 Power out & relay: 1x 12 V DC, max 500 mA 1x solid state relay 30 V DC, max 700 mA Power out lock: 2x 12 V DC, max 500 mA
- **Connectors** RJ45 10BASE-T/100BASE-TX Terminal blocks: DC power, 10 Inputs/Outputs, RS485/Wiegand, Relay, Cable size for connectors: CSA, AWG 28–16, CUL/UL: AWG 30–14
- **Operating conditions** 0 °C to 50 °C (32 °F to 122 °F) Humidity 20–85% RH (non-condensing)
- **Approvals** EN 55022 Class B, EN 50130-4, EN 61000-3-2, EN 61000-3-3, EN 55024, EN 61000-6-1, EN 61000-6-2, FCC Part 15 Subpart B Class B, IEC/EN/IEC 60950-1, UL 294, UL 2043, EN 50581
- **Dimensions** 45.5 x 180 x 180 mm (1.8 x 7.1 x 7.1 in)
- **Weight** 500 g (1.1 lb)
- **Included accessories** Connector kit, Cable ties, Installation Guide
- **Optional accessories** AXIS T8120 Midspan 15 W, AXIS T8128 PoE Splitter 24 V (requires 30 W midspan), AXIS T8129 PoE Extender Mains adaptor 24 V DC, AXIS T8BA15-VE Surveillance Cabinet
- **Warranty** Axis 3-year warranty and AXIS Extended Warranty option, see www.axis.com/warranty
